Income from U.S. Government Obligations

Some states do not tax their residents on income from a mutual fund that is earned from U.S. Government Obligations. The following table shows the percentage of total ordinary income dividends shown in Box 1a of your 2021 1099-DIV statement that were attributable to interest earned from direct U.S. Government Obligations:

<u>Fund Name</u>	<u>% of Ordinary Income Attributable to Direct U.S. Govt. Obligation (See Box 1)</u>
Rockefeller Intermediate Tax Exempt National Bond Fund	0.00%
Rockefeller Core Taxable Bond Fund	20.28%
Rockefeller Intermediate Tax Exempt New York Bond Fund	0.00%
Rockefeller Equity Allocation Fund	0.00%
Rockefeller Climate Solutions Fund	0.00%

Depending on your state's personal income tax laws, you may be entitled to declare the above portion of your 2021 ordinary income dividends (Box 1a) as tax-exempt income on your state personal income tax return. However, some states do not allow the "pass through" of this exempt-interest income unless the percentage earned from U.S. Government Obligations exceeds certain thresholds or unless other requirements are met. Please consult your tax adviser or state authorities if you have any questions regarding the percentage of income you can exclude when calculating your state income tax.
