Summary Section

Investment Objective

The Rockefeller Climate Solutions Fund (the “Fund”) seeks long-term growth of capital principally through equity investments in public companies across the market capitalization spectrum offering climate change mitigation or adaptation products and services.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and Example below. You may qualify for sales charge discounts on Class A shares if you or your family invest, or agree to invest in the future, at least \$2,500 in the Fund’s Class A shares. Certain financial intermediaries may also offer variations in Fund sales charges to their customers. More information about these and other discounts is available from your financial professional and under “Shareholder Information – Class A Sales Charge Reductions and Waivers” beginning on page 19 of this Prospectus, and under “Sales Charges; Sales Charge Reductions and Waivers – Sales Charges on Class A Shares” beginning on page 29 of the Fund’s Statement of Additional Information (“SAI”).

Shareholder Fees <i>(fees paid directly from your investment)</i>	Institutional Class	Class A
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None	5.25%
Maximum Deferred Sales Charge (Load) (as a percentage of purchases that are redeemed within 12 months of purchase)	None	1.00%
Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investment)</i>		
Management Fees	0.85%	0.85%
Distribution and Service (12b-1) Fees	None	0.25%
Other Expenses ⁽¹⁾	0.20%	0.20%
Total Annual Fund Operating Expenses ⁽¹⁾	1.05%	1.30%
Less: Fee Waiver and/or Expense Reimbursement	0.06%	0.06%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement ⁽²⁾	0.99%	1.24%

⁽¹⁾ Because the Fund is a new mutual fund, these expenses are based on estimated amounts for the Fund’s current fiscal year.

⁽²⁾ Pursuant to an operating expense limitation agreement between Rockefeller & Co. LLC (the “Adviser”), the Fund’s investment adviser, and the Trust, on behalf of the Fund, the Adviser has agreed to waive its management fees and/or reimburse expenses of the Fund to ensure that Total Annual Fund Operating Expenses (excluding any front-end or contingent deferred loads, Rule 12b-1 plan fees, shareholder servicing plan fees, taxes, leverage expenses (*i.e.*, any expenses incurred in connection with borrowings made by the Fund), interest (including interest incurred in connection with bank and custody overdrafts), brokerage commissions and other transactional expenses, expenses incurred in connection with any merger or reorganization, dividends or interest expenses on short positions, acquired fund fees and expenses or extraordinary expenses such as litigation (collectively “Excluded Expenses”) do not exceed 0.99% of the Fund’s average daily net assets, through at least July 20, 2023 and subject thereafter to annual re-approval of the agreement by the Trust’s Board of Trustees (the “Board of Trustees”). To the extent the Fund incurs Excluded Expenses, Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement may be greater than 0.99%. The operating expense limitation agreement may be terminated at any time only by, or with the consent of the Board of Trustees. The Adviser may request recoupment of previously waived fees and paid expenses from the Fund up to three years from the date such fees and expenses were waived or paid, subject to the operating expense limitation agreement, if such reimbursement will not cause the Fund’s expense ratio, after recoupment has been taken into account, to exceed the lesser of: (1) the expense limitation in place at the time of the waiver and/or expense payment; or (2) the expense limitation in place at the time of the recoupment.

Example

This Example is intended to help you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then hold or redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The operating expense limitation agreement discussed in the table above is reflected only through July 20, 2023. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

<u>Share Class</u>	<u>One Year</u>	<u>Three Years</u>
Institutional Class	\$101	\$322
Class A	\$620	\$880

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These transaction costs and potentially higher taxes, which are not reflected in the Total Annual Fund Operating Expenses or in the Example, affect the Fund's performance. Because the Fund is newly organized as a mutual fund, portfolio turnover information is not yet available.

Principal Investment Strategies

Under normal market conditions, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of public companies offering climate change mitigation or adaptation products and services. The Adviser typically considers a company to be focused on climate mitigation or adaptation solutions where it generates revenue (as further detailed below) by delivering products or services related to water infrastructure and technologies, waste management and technologies, energy efficiency, food, agriculture and forestry, renewable and alternative energy, healthcare, pollution control, and/or climate support systems (the "Climate Solution Activities"). The Fund may invest in companies operating in any industry or sector. However, due to its focus on Climate Solutions Activities, the Fund is expected to have more meaningful exposure to companies operating in the Industrials sector, and to a lesser extent, to companies operating in the Consumer Discretionary, Communication Services, traditional Energy, and Financials sectors.

Equity securities in which the Fund may invest include common stocks, preferred stocks, depositary receipts, and interests in real estate investment trusts ("REITs") and master limited partnerships ("MLPs") which engage in Climate Solutions Activities. The Fund may also invest in other investment companies and exchange-traded funds ("ETFs") that invest in equity securities, and these investments will count for the purpose of meeting the requirement that 80% of the Fund's net assets be invested in equity securities of public companies offering climate change mitigation or adaptation products and services. The Fund may invest in equity securities of U.S. and foreign companies (including issuers domiciled in emerging markets or less developed countries) with market capitalizations of any size. The Fund's investments in common stocks of foreign companies may include depositary receipts, such as American Depositary Receipts ("ADRs") and Global Depositary Receipts ("GDRs"). The Fund invests a portion of its assets in securities that are traded in currencies other than U.S. dollars, so the Fund may buy and sell foreign currencies to facilitate transactions in portfolio securities. The Fund does not currently expect to hedge against currency risks, although the Fund retains the discretion to engage in such hedging strategies if the Adviser determines that it may be advantageous to do so.

Ideas for potential investments are sourced by the Adviser utilizing internal and external research, including from relationships with climate focused organizations and industry collaborations such as non-governmental organizations (NGOs) and other non-profit organizations. The Adviser employs a bottom-

up, fundamental investment approach to build an actively managed portfolio of public companies engaging in Climate Solutions Activities across key environmental themes such as water infrastructure & technology, waste management & technologies, renewable energy, energy efficiency, pollution control, climate support services, healthcare mitigation, and food & agriculture. Companies considered for the Fund's portfolio will derive material revenue (50% or greater) from Climate Solution Activities or which have a lower level of revenue exposure (generally at least 20%) with the potential to grow the revenue associated with Climate Solution Activities.

Principal Risks

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested, and the amount of risk you are willing to take. Remember, in addition to possibly not achieving your investment goals, **you could lose all or a portion of your investment in the Fund over long or even short periods of time.** The principal risks of investing in the Fund are:

- *General Market Risk.* The value of the Fund's shares may fluctuate based on the performance of the Fund's investments and other factors affecting the securities markets generally.
- *Recent Market Events.* U.S. and international markets have experienced significant periods of volatility in recent months and years due to a number of economic, political and global macro factors including the impact of the coronavirus (COVID-19) global pandemic which has resulted in a public health crisis, business interruptions, growth concerns in the U.S. and overseas, layoffs, rising unemployment claims, changed travel and social behaviors, and reduced consumer spending. The effects of COVID-19 may lead to a substantial economic downturn or recession in the U.S. and global economies, the recovery from which is uncertain and may last for an extended period of time.
- *Management Risk.* The Adviser's judgments about the attractiveness, value and potential appreciation of the Fund's investments may prove to be incorrect and the investment strategies employed by the Adviser in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to other similar investment vehicles having similar investment strategies.
- *New Fund Risk.* The Fund is a newly registered mutual fund with no operating history as a mutual fund. There can be no assurance that the Fund will grow to or maintain an economically viable size, in which case the Board of Trustees may determine to liquidate the Fund. Liquidation of the Fund can be initiated without shareholder approval by the Board of Trustees if it determines that liquidation is in the best interests of shareholders. As a result, the timing of any liquidation may not be favorable to certain individual shareholders.
- *Equity Market Risk.* The equity securities held in the Fund's portfolio may experience sudden, unpredictable drops in value or long periods of decline in value. This may occur because of factors that affect securities markets generally or factors affecting specific industries, sectors or companies in which the Fund invests. Common stocks are generally exposed to greater risk than other types of securities, such as preferred stock and debt obligations, because common stockholders generally have inferior rights to receive payment from issuers.
- *Large Capitalization Companies Risk.* Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors. Also, large-capitalization companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.
- *Small- and Medium-Capitalization Companies Risk.* Investing in securities of small- and medium-capitalization companies may involve greater volatility than investing in larger and more established companies because small- and medium-capitalization companies can be subject to more abrupt or erratic share price changes than larger, more established companies.
- *Climate Solutions Risk.* The Fund will focus its investment activities on companies offering climate change mitigation or adaptation products and services. There is no guarantee that these themes will generate profitable investment opportunities for the Fund, or that the Adviser will be successful in identifying profitable investment opportunities within these investment themes. The Fund's focus on

environmental criteria will limit the number of investment opportunities available to the Fund as compared to other mutual funds with broader investment objectives, and as a result, the Fund may underperform funds that are not subject to similar investment considerations. Portfolio companies may be significantly affected by environmental considerations, taxation, government regulation (including the increased cost of compliance), inflation, increases in interest rates, price and supply fluctuations, increases in the cost of raw materials and other operating costs, technological advances, and competition from new market entrants. In addition, companies may share common characteristics and be subject to similar business risks and regulatory burdens. A downturn in the demand for climate change mitigation and adaptation products and services is likely to have a significant negative impact on the value of the Fund's investments. As a result of these and other factors, the Fund's portfolio investments are expected to be volatile, which may result in significant investment losses to the Fund.

- *Sector Risk.* Due to the Fund's focus on climate change mitigation or adaptation products and services, the Fund's portfolio, as compared to broader benchmarks, is expected to typically have more meaningful exposure to companies operating in the Industrials sectors and to have reduced exposure to the Communication Services, traditional Energy, Financials and Real Estate sectors. The Industrial sector includes companies engaged in the manufacture and distribution of capital goods, such as those used in defense, construction and engineering, companies that manufacture and distribute electrical equipment and industrial machinery and those that provide commercial and transportation services and supplies. Companies in the Industrial sector may be adversely affected by changes in government regulation, world events and economic conditions. In addition, companies in the Industrial sector may be adversely affected by environmental damages, product liability claims and exchange rates. The success of these companies is affected by supply and demand both for their specific product or service and for Industrial sector products in general. The products of manufacturing companies may face product obsolescence due to rapid technological developments and frequent new product introduction. In addition, the Industrial sector may also be adversely affected by changes or trends in commodity prices, which may be unpredictable. As a result, the Fund's investment returns may underperform the market in periods where the Industrial sectors underperform other sectors. Potential negative market or economic developments affecting one or more of the sectors in which the Fund's investments are concentrated could have a greater impact on the Fund than on a fund with fewer holdings in the impacted sectors.
- *Foreign Securities Risk.* Investments in foreign securities involve certain risks relating to political, social and economic developments abroad and differences between U.S. and foreign regulatory requirements and market practices, including fluctuations in foreign currencies, as well as risks related to the lack of public information with respect to such foreign issuers and the absence of uniform accounting, auditing and financial reporting standards. Foreign securities markets are often less liquid than U.S. securities markets, which may make the disposition of foreign securities more difficult. These risks may be magnified in emerging market countries.
- *Emerging Market Risk.* Some of the securities in which the Fund may invest may be located in developing or emerging markets, which entail additional risks, including less social, political and economic stability; smaller securities markets and lower trading volume, which may result in less liquidity and greater price volatility; national policies that may restrict the Fund's investment opportunities, including restrictions on investments in issuers or industries, or expropriation or confiscation of assets or property; and less developed legal structures governing private or foreign investment.
- *Currency Risk.* The Fund may invest in securities denominated in U.S. dollars or foreign currencies (including those of issuers located in emerging markets).
- *Hedging Risk.* The Fund does not currently expect to hedge against declines in the values of its portfolio positions as a result of changes in currency exchange rates, certain changes in the equity markets and market interest rates, and other events, although it may do so in the discretion of the Adviser. Hedging transactions may limit the opportunity for gain if the value of the hedged portfolio positions should increase. Additionally, a lack of hedging by the Fund may cause the value of its portfolio positions to decline.

- *Master Limited Partnership Risk.* The Fund may invest in Master Limited Partnerships (“MLPs”) that have exposure to renewable energy activities. Companies involved with renewable energy can be affected significantly by factors such as supply and demand for energy, availability and cost of traditional energy sources, consumer preferences, and government regulations, including subsidies. MLP investment returns are enhanced during periods of declining or low interest rates and tend to be negatively influenced when interest rates are rising. In addition, most MLPs are fairly leveraged and typically carry a portion of a “floating” rate debt. As such, a significant upward swing in interest rates would also drive interest expense higher. Furthermore, most MLPs grow by acquisitions partly financed by debt, and higher interest rates could make it more difficult to make acquisitions. MLP investments also generally entail many of the general tax risks of investing in a partnership. There is always a risk that an MLP will fail to qualify for favorable tax treatment. Limited partners in an MLP typically have limited control and limited rights to vote on matters affecting the partnership.
- *Real Estate Investment Risk.* The Fund could lose money due to the performance of real estate-related securities even if securities markets generally are experiencing positive results. The performance of investments made by the Fund may be determined to an extent by the current status of the real estate industry in general, or by other factors (such as interest rates and the availability of loan capital) that may affect the real estate industry, even if other industries would not be so affected. Consequently, the investment strategies of the Fund could lead to securities investment results that may be significantly different from investments in securities of other industries or sectors or in a more broad-based portfolio generally. The risks related to investments in realty companies include, but are not limited to: adverse changes in general economic and local market conditions; adverse developments in employment; changes in supply or demand for similar or competing properties; unfavorable changes in applicable taxes, governmental regulations and interest rates; operating or development expenses; and lack of available financing.
- *REIT Risk.* Adverse changes in general economic and local market conditions, supply or demand for similar or competing properties, taxes, governmental regulations or interest rates, as well as the risks associated with improving and operating property, may decrease the value of REITs in which the Fund may invest. Additionally, there is always a risk that a REIT will fail to qualify for favorable tax treatment.
- *Other Investment Company and Exchange-Traded Fund Risk.* When the Fund invests in other investment companies, including ETFs, it will bear additional expenses based on its pro rata share of the other investment company’s operating expenses, including the potential duplication of management fees. The risk of owning another investment company generally reflects the risks of owning the underlying investments the other investment company holds. The Fund also will incur brokerage costs when it purchases and sells investment company shares. ETFs may trade at a discount or premium to net asset value (“NAV”). There can be no assurance that an active trading market for an ETF’s shares will exist. There are greater risks involved in investing in securities with limited market liquidity.
- *American Depositary Receipts (“ADRs”) Risk.* The Fund may invest in ADRs. ADRs, which are typically issued by a U.S. financial institution (a “depository”), evidence ownership interests in a security or pool of securities issued by a foreign company which are held by the depository. ADRs are denominated in U.S. dollars and trade in the U.S. securities markets. Because ADRs are not denominated in the same currency as the underlying securities into which they may be converted, they are subject to currency risks. In addition, depository receipts involve many of the same risks of investing directly in foreign securities. Depository receipts involve many of the same risks of investing directly in foreign securities.
- *Global Depositary Receipts (“GDRs”) Risk.* To the extent the Fund may invest in foreign securities, the Fund may invest in GDRs. GDRs are receipts issued by foreign banks or trust companies, or foreign branches of U.S. banks that represent an interest in shares of either a foreign or U.S. corporation. GDRs may not be denominated in the same currency as the underlying securities into which they may be converted, and are subject to currency risks. Depository receipts involve many of the same risks of investing directly in foreign securities.

- *Preferred Stock Risk.* Preferred stock is subject to the risk that the dividend on the stock may be changed or omitted by the issuer, and that participation in the growth of an issuer may be limited.
- *Competition Risk.* The task of identifying attractive investments is difficult and involves many uncertainties. Because of competition from other investment groups and many other factors, there can be no assurance that the Fund will be able fully to invest its capital on attractive terms, and there can be no assurance that the Fund will achieve results comparable to that of other investment vehicles having similar investment objectives.
- *Cybersecurity Risk.* With the increased use of technologies such as the Internet to conduct business, the Fund is susceptible to operational, information security, and related risks. Cyber incidents affecting the Fund or its service providers have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Fund's ability to calculate its NAV, impediments to trading, the inability of shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs.

Performance

The Fund is a newly registered mutual fund and does not have a full calendar year of performance as a mutual fund. Prior performance shown below represents the historical performance of the Founder's interests of the Rockefeller Climate Solutions Fund, L.P. (formerly the Rockefeller Ocean Fund, L.P.) (the "Predecessor Fund"), a Delaware limited partnership that commenced operations on June 1, 2012. The Predecessor Fund offered Class A interests and Founder's interests. The Predecessor Fund was reorganized into the Fund by transferring all of the Predecessor Fund's assets to the Fund in exchange solely for Institutional Class shares of the Fund on July 22, 2021, the date that the Fund commenced operations (the "Reorganization"). Following the Reorganization, the Predecessor Fund was liquidated and dissolved. The Fund's investment objective, strategies, policies, guidelines and restrictions are, in all material respects, the same as those of the Predecessor Fund. The Adviser was the investment adviser to the Predecessor Fund for the entire performance period shown below and the Adviser will continue to serve as investment adviser to the Fund. At the time of the Reorganization, the Predecessor Fund's investment portfolio was managed by the same portfolio managers and team of investment professionals who manage the Fund's investment portfolio. Prior to the Reorganization, the Fund was an unregistered trust that did not qualify as a regulated investment company for federal income tax purposes and did not pay dividends and distributions. As a result of the different tax treatment, the Fund is unable to show after-tax returns for periods prior to the Reorganization.

From its inception through the date of the Reorganization, the Predecessor Fund was not subject to certain investment restrictions, diversification requirements and other restrictions of the Investment Company Act of 1940, as amended (the "1940 Act") or Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"), which, if they had been applicable, might have adversely affected the Predecessor Fund's performance. After the Reorganization, the Fund's performance will be calculated using the standard formula set forth in rules promulgated by the SEC, which differs in certain respects from the methods used to compute total return for the Predecessor Fund. Please refer to the Financial Statements in the SAI to review additional information about the Predecessor Fund.

The information below provides some indications of the risks of investing in the Fund. The bar chart shows how the performance for the Predecessor Fund varied from year to year. The Predecessor Fund's past performance shown below is not necessarily an indication of how the Fund will perform in the future. Institutional Class shares of the Fund would have similar annual returns to Class A shares and the Predecessor Fund because they are invested in the same portfolio of securities; however, the returns for Institutional Class shares would be lower than those of the Class A shares and the Predecessor Fund because Institutional Class shares have different expenses than the Class A shares and the Predecessor Fund. Class A shares would have materially equivalent annual returns to the Institutional Class shares of the Fund because the shares are invested in the same portfolio of securities and the annual returns would differ only to the extent that Class A shares are subject to a maximum sales load. The Predecessor Fund's past performance shown below is not necessarily an indication of how the Fund will perform in the future.

When the Fund has been in operation for a full calendar year, performance information will be shown here. Updated performance information will be available on the Fund’s website at www.rockefellerfunds.com or by calling the Fund toll-free at 1-855-369-6209.

Institutional Class Shares⁽¹⁾
Calendar Year Returns as of December 31

⁽¹⁾ The returns shown in the bar chart reflect the performance of Founder’s class interests of the Predecessor Fund. Class A shares would have materially equivalent annual returns because the shares are invested in the same portfolio of securities and the annual returns would differ only to the extent that Class A shares are subject to a maximum sales load. The performance of the Predecessor Fund has not been restated to reflect the estimated fees and fee waivers or expense limitations applicable to each class of shares of the Fund. Had the performance of the Predecessor Fund been restated, the performance would have been lower. The bar chart does not reflect sales charges and returns would have been lower had sales charges been reflected. The performance of the Predecessor Fund is for Founders interests which was the only class issued at the inception of the Predecessor Fund. Founders interests and Class A interests of the Predecessor Fund were identical except for inception date and the investment management fee rate charged to each class. The investment management fee rate charged to Founder’s interests and Class A interests was 0.75% and 1.00%, respectively. Because Class A interests of the Predecessor Fund were subject to a higher investment management fee rate, its performance was lower than Founder’s interests.

During the period shown in the bar chart, the best performance for a quarter was 22.47% (for the quarter ended December 31, 2020). The worst performance was -17.97% (for the quarter ended March 31, 2020).

Average Annual Total Returns
(for the Periods Ended December 31, 2020)

	One Year	Five Year	Since Inception (6/1/12)
Institutional Class Shares			
Return Before Taxes	35.05%	16.72%	13.35%
Return After Taxes on Distributions	N/A	N/A	N/A
Return After Taxes on Distributions and Sale of Fund Shares	N/A	N/A	N/A
MSCI All Country World Index (Net)	16.25%	12.26%	11.61%
<i>(reflects no deduction for fees, expenses or taxes)</i>			

The returns shown in the table reflect the performance of Founder’s class interests of the Predecessor Fund. Returns are shown for Institutional Class shares only and will vary for Class A shares.

Management

Investment Adviser

Rockefeller & Co. LLC is the Fund's investment adviser.

Portfolio Managers

Casey C. Clark, CFA[®], Managing Director, Global Head of Environmental, Social and Governance (ESG) Investments & Portfolio Manager of the Adviser, has served as co-portfolio manager of the Fund since it commenced operations in July, 2021. Rolando F. Morillo, a Portfolio Manager and Senior Vice President of the Adviser, has served as co-portfolio manager of the Fund since it commenced operations in July, 2021.

Purchase and Sale of Fund Shares

You may purchase or redeem Fund shares via written request by mail (Rockefeller Climate Solutions Fund, c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, WI 53201-0701), by wire transaction, or by contacting the Fund by telephone at 1-855-369-6209, on any day the New York Stock Exchange ("NYSE") is open for trading. Investors who wish to purchase or redeem Fund shares through a financial intermediary should contact the financial intermediary directly. Minimum initial and subsequent investment amounts are shown below.

<u>Share Purchase Amounts</u>	<u>Institutional Class</u>	<u>Class A</u>
Minimum Initial Investment	\$1,000,000	\$2,500
Minimum Subsequent Investment	\$10,000	\$1,000

Tax Information

Distributions made by the Fund will be taxed as ordinary income or long-term capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account ("IRA"). You may be taxed later upon withdrawal of monies from such tax-deferred arrangements or other tax-advantaged arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

Investment Strategies, Risks and Disclosure of Portfolio Holdings

Investment Objective. The Fund seeks long-term growth of capital principally through equity investments in public companies across the market capitalization spectrum offering on climate change mitigation or adaptation products and services.

Changes in Investment Objective. The Fund's investment objective may be changed without the approval of the Fund's shareholders upon 60 days' prior written notice to shareholders. The Fund may not make any change to its investment policy of investing at least 80% of net assets in equity securities of public companies offering climate change mitigation or adaptation products and services, as suggested by the Fund's name without first changing the Fund's name and providing shareholders with at least 60 days' prior written notice.

Principal Investment Strategies. Under normal market conditions, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of public companies offering climate change mitigation or adaptation products and services. The Adviser typically considers a company to be focused on climate mitigation or adaptation solutions where it generates revenue (as further detailed below) by delivering products or services related to water infrastructure and technologies, waste management and technologies, energy efficiency, food, agriculture and forestry, renewable and alternative energy, healthcare, pollution control, and/or climate support systems (the "Climate Solution Activities"). The Fund may invest in companies operating in any industry or sector. However, due to its focus on Climate Solutions Activities, the Fund is expected to have more meaningful exposure to companies operating in the Industrials sector, and to a lesser extent, to companies operating in the Consumer Discretionary, Communication Services, traditional Energy, and Financials sectors.

Equity securities in which the Fund may invest include common stocks, preferred stocks, depository receipts, and interests in real estate investment trusts ("REITs") and master limited partnerships ("MLPs") which engage in Climate Solutions Activities. The Fund may also invest in other investment companies and exchange-traded funds ("ETFs") that invest in equity securities, and these investments will count for the purpose of meeting the requirement that 80% of the Fund's net assets be invested in equity securities of public companies offering climate change mitigation or adaptation products and services. The Fund may invest in equity securities of U.S. and foreign companies (including issuers domiciled in emerging markets or less developed countries) with market capitalizations of any size. The Fund's investments in common stocks of foreign companies may include depository receipts, such as American Depositary Receipts ("ADRs") and Global Depositary Receipts ("GDRs"). The Fund invests a portion of its assets in securities that are traded in currencies other than U.S. dollars, so the Fund may buy and sell foreign currencies to facilitate transactions in portfolio securities. The Fund does not currently expect to hedge against currency risks, although the Fund retains the discretion to engage in such hedging strategies if the Adviser determines that it may be advantageous to do so.

Ideas for potential investments are sourced by the Adviser utilizing internal and external research, including from relationships with climate focused organizations and industry collaborations such as non-governmental organizations (NGOs) and other non-profit organizations. The Adviser employs a bottom-up, fundamental investment approach to build an actively managed portfolio of public companies engaging in Climate Solutions Activities across key environmental themes such as water infrastructure & technology, waste management & technologies, renewable energy, energy efficiency, pollution control, climate support services, healthcare mitigation, and food & agriculture. Companies considered for the Fund's portfolio will derive material revenue (50% or greater) from Climate Solution Activities or which have a lower level of revenue exposure (generally at least 20%) with the potential to grow the revenue associated with Climate Solution Activities.

Companies that meet the Adviser's climate solutions revenue criteria are considered for inclusion in the portfolio on a case-by-case basis. The Adviser's analysis typically begins with an understanding of climate solutions companies with identifiable long-term growth catalysts and will advance to its research phase

where its analysts conduct fundamental bottom-up analysis. This analysis takes into consideration multiple factors, which may include but are not limited to, (1) the company's positioning relative to growth catalysts such as public policy and regulatory change, shifting consumer behavior and technological innovation; (2) a company's competitive advantages such as technology, intellectual property, operational efficiencies and distribution capabilities; (3) a company's valuation profile and financial characteristics (for example, enterprise value (which looks at the company's total value) to earnings before interest, taxes, depreciation, and amortization or "EBITDA" (used as an indicator of the overall profitability of a business), price to earnings ratio, price to cash-flow ratio and price to sales ratio), (4) a company's management team quality, (5) an assessment of whether a company's product or service can contribute to a climate mitigation or adaptation solution, and (6) a company's potential long-term viability over varying economic cycles. If the Adviser determines that a portfolio company no longer meets its climate solutions criteria (such as the development of controversial behavior, an acquisition, a change of business mix or due to new information), the Adviser may seek to remediate through engagement with the portfolio company and/or divest from the company. As a result, there may be occasions where the exposure to undesirable investments or restricted activities (in respect of the climate solutions criteria) may take a period of time to be eliminated.

The Fund may invest a portion of its assets in units or shares of other investment companies. Investments in other investment companies will be utilized primarily for efficient portfolio management purposes but may also be utilized for investment purposes. The other investment companies in which the Fund may invest could have exposure to companies that do not meet the financial or environmental criteria applied when evaluating companies for direct investment by the Fund. To the extent the Fund invests in any other investment companies, the Fund shall be responsible for the expenses (including management fees payable to the third party manager) of such other investment companies.

For temporary defensive purposes, the Adviser may invest up to 100% of the Fund's total assets in high-quality, short-term debt securities and money market instruments. These short-term debt securities and money market instruments include shares of other mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. Taking a temporary defensive position may result in the Fund not achieving its investment objective. Furthermore, to the extent that the Fund invests in money market mutual funds for its cash position, the Fund would bear its pro rata portion of such money market funds' management fees and operational expenses.

Principal Risks of Investing in the Fund

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested, and the amount of risk you are willing to take. Remember, in addition to possibly not achieving your investment goals, **you could lose all or a portion of your investment in the Fund**. The Fund's principal risks are presented in alphabetical order to facilitate finding particular risks and comparing them with other funds. Each risk summarized below is considered a "principal risk" of investing in the Fund, as applicable, regardless of the order in which it appears. The principal risks of investing in the Fund are:

ADR Risk. The Fund may invest in ADRs. ADRs, which are typically issued by a U.S. financial institution (a "depository"), evidence ownership interests in a security or pool of securities issued by a foreign company which are held by the depository. ADRs are denominated in U.S. dollars and trade in the U.S. securities markets. Because ADRs are not denominated in the same currency as the underlying securities into which they may be converted, they are subject to currency risks. In addition, depository receipts involve many of the same risks of investing directly in foreign securities.

Climate Solutions Risk. The Fund will focus its investment activities on companies offering climate change mitigation or adaptation products and services. There is no guarantee that these investment themes will generate profitable investment opportunities for the Fund, or that the Adviser will be successful in identifying profitable investment opportunities within these investment themes. The Fund's focus on environmental criteria will limit the number of investment opportunities available to the Fund as compared to other mutual funds with broader investment objectives, and as a result, the Fund may underperform funds that are not subject to similar investment considerations. Portfolio companies may be significantly affected by environmental considerations, taxation, government regulation (including the increased cost of compliance), inflation, increases in interest rates, price and supply fluctuations, increases in the cost of raw materials and other operating costs, technological advances, and competition from new market entrants. In addition, companies may share common characteristics and be subject to similar business risks and regulatory burdens. A downturn in the demand for climate change mitigation and adaptation products and services is likely to have a significant negative impact on the value of the Fund's investments. As a result of these and other factors, the Fund's portfolio investments are expected to be volatile, which may result in significant investment losses to the Fund.

Common Stock Risk. Common stock represents a proportionate share of the ownership of a company and its value is based on the success of the company's business, any income paid to stockholders, the value of its assets, and general market conditions. In addition to the general risks of equity securities, investments in common stocks are subject to the risk that in the event a company in which the Fund invests is liquidated, the holders of preferred stock and creditors of that company will be paid in full before any payments are made to the Fund as a holder of common stock. It is possible that all assets of that company will be exhausted before any payments are made to the Fund.

Competition Risk. The task of identifying attractive investments is difficult and involves many uncertainties. Because of competition from other investment groups and many other factors, there can be no assurance that the Fund will be able fully to invest its capital on attractive terms, and there can be no assurance that the Fund will achieve results comparable to that of other investment vehicles having similar investment objectives.

Currency Risk. When the Fund buys or sells securities on a foreign stock exchange, the transaction is undertaken in the local currency rather than in U.S. dollars. The value of the foreign currency may increase or decrease against the value of the U.S. dollar, which may impact the value of the Fund's portfolio holdings and your investment. The value of an investment denominated in a foreign currency will decline in dollar terms if that currency weakens against the dollar. Other countries may adopt economic policies and/or currency exchange controls that affect their currency valuations in a manner that is disadvantageous to U.S. investors and companies. Such practices may restrict or prohibit the Fund's ability to repatriate both investment capital and income, or may impose fees for doing so, which could place the Fund's assets at risk of total loss. Currency risks may be greater in emerging market and frontier market countries than in developed market countries. Certain of the Fund's foreign currency transactions may give rise to ordinary income or loss to the extent such income or loss results from fluctuations in the value of the foreign currency.

Cybersecurity Risk. With the increased use of technologies such as the Internet to conduct business, the Fund is susceptible to operational, information security, and related risks. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber attacks include, but are not limited to, gaining unauthorized access to digital systems (e.g., through "hacking" or malicious software coding) for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites (i.e., efforts to make network services unavailable to intended users). Cyber incidents affecting the Fund or its service providers have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Fund's ability to calculate their NAV, impediments to trading, the inability of shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage,

reimbursement or other compensation costs, or additional compliance costs. Similar adverse consequences could result from cyber incidents affecting issuers of securities in which the Fund invests, counterparties with which the Fund engages in transactions, governmental and other regulatory authorities, exchange and other financial market operators, banks, brokers, dealers, insurance companies and other financial institutions (including financial intermediaries and service providers for shareholders) and other parties. In addition, substantial costs may be incurred in order to prevent any cyber incidents in the future. While the Fund's service providers have established business continuity plans in the event of, and risk management systems to prevent, such cyber incidents, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Furthermore, the Fund cannot control the cyber security plans and systems put in place by its service providers or any other third parties whose operations may affect the Fund or its shareholders. As a result, the Fund and its shareholders could be negatively impacted.

Emerging Markets Risk. Some of the securities in which the Fund may invest may be located in developing or emerging markets, which entail additional risks, including less social, political and economic stability; smaller securities markets and lower trading volume, which may result in less liquidity and greater price volatility; national policies that may restrict the Fund's investment opportunities, including restrictions on investments in issuers or industries, or expropriation or confiscation of assets or property; and less developed legal structures governing private or foreign investment.

Equity Market Risk. The Fund will be exposed to equity market risk through direct investments in equity securities and investments in equity-linked derivative instruments. Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. These investor perceptions are based on various and unpredictable factors including: expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction; and global or regional political, economic and banking crises. Common stock, or common stock equivalents, of any given issuer, are generally exposed to greater risk than preferred stocks and debt obligations of the issuer because common stock, or equivalent interests, generally have inferior rights to receive payments from issuers in comparison with the rights of preferred stock, bonds and other creditors of such issuers. Preferred stocks are subject to the risk that the dividend on the stock may be changed or discontinued by the issuer, and that participation in the growth of an issuer may be limited.

Foreign Securities Risk. The Fund may invest in foreign securities, including direct investments of foreign issuers and investments in depository receipts (such as ADRs and GDRs) that represent indirect interests in securities of foreign issuers. These investments involve certain risks not generally associated with investments in securities of U.S. issuers. Public information available concerning foreign issuers may be more limited than would be with respect to domestic issuers. Different accounting, auditing and financial reporting standards may be used by foreign issuers, and foreign trading markets may not be as liquid as U.S. markets. Foreign securities also involve such risks as currency fluctuation risk, delays in transaction settlements, possible imposition of withholding or confiscatory taxes, possible currency transfer restrictions, and the difficulty of enforcing obligations in other countries. Securities that are denominated in foreign currencies are subject to the further risk that the value of the foreign currency will fall in relation to the U.S. dollar and/or will be affected by volatile currency markets or actions of U.S. and foreign governments or central banks. With any investment in foreign securities, there exists certain political, social and economic risks, including the risk of adverse political developments, nationalization, confiscation without fair compensation and war.

For example, the United Kingdom (UK) withdrew from the European Union (EU) on January 31, 2020 following a June 2016 referendum referred to as "Brexit." Although the UK and EU agreed to a provisional trade deal in December 2020 that was later ratified by the EU Parliament and entered into force on May 1, 2021, certain post-EU arrangements, such as those relating to the offering of cross-border financial services and sharing of cross-border data, have yet to be reached and the EU's willingness to grant equivalency to the UK remains uncertain. There is significant market uncertainty regarding Brexit's

ramifications, and the range of possible political, regulatory, economic and market outcomes are difficult to predict. The uncertainty surrounding the UK's economy, and its legal, political, and economic relationship with the remaining member states of the EU, may cause considerable disruption in securities markets, including decreased liquidity and increased volatility, as well as currency fluctuations in the British pound's exchange rate against the U.S. dollar.

General Market Risk. The market value of a security may move up or down, sometimes rapidly and unpredictably. These fluctuations may cause a security to be worth less than the price originally paid for it, or less than it was worth at an earlier time. Market risk may affect a single issuer, industry, sector of the economy or the market as a whole. Global economies and financial markets are increasingly interconnected, which increases the probabilities that conditions in one country or region might adversely impact issues in a different country or region. In some cases, the stock prices of individual companies have been negatively impacted even though there may be little or no apparent degradation in the financial condition or prospects of that company. As a result of this volatility, many of the following risks associated with an investment in the Fund may be increased. Continuing market problems may have adverse effects on the Fund. Political and diplomatic events within the U.S. may affect investor and consumer confidence and may adversely impact financial markets and the broader economy. Additionally, geopolitical conflicts continue to be ongoing risks to future growth. Markets may react strongly to changes in these policies, which could increase volatility.

Global Depositary Receipts ("GDRs") Risk. To the extent the Fund may invest in foreign securities, the Fund may invest in GDRs. GDRs are receipts issued by foreign banks or trust companies, or foreign branches of U.S. banks that represent an interest in shares of either a foreign or U.S. corporation. GDRs may not be denominated in the same currency as the underlying securities into which they may be converted, and are subject to currency risks. Depositary receipts involve many of the same risks of investing directly in foreign securities.

Hedging Risk. The Fund does not currently expect to hedge against declines in the values of its portfolio positions as a result of changes in currency exchange rates, certain changes in the equity markets and market interest rates, and other events, although it may do so in the discretion of the Adviser. Hedging against a decline in the value of portfolio positions does not eliminate fluctuations in the values of portfolio positions or prevent losses if the values of such positions decline, but it establishes other positions designed to gain from those same developments, thus offsetting the decline in the portfolio positions' value. Such hedging transactions also limit the opportunity for gain if the value of the hedged portfolio positions should increase. It may not be possible for the Fund to hedge against a change or event at a price sufficient to protect its assets from the decline in value of the portfolio positions anticipated as a result of such change. Additionally, a lack of hedging by the Fund may cause the value of its portfolio positions to decline. In addition, it may not be possible to hedge against certain changes or events at all.

Large Capitalization Companies Risk. Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors. Also, large-capitalization companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.

Management Risk. The ability of the Fund to meet its investment objective is directly related to the Adviser's investment strategies for the Fund. The value of your investment in the Fund may vary with the effectiveness of the Adviser's research, analysis and asset allocation among portfolio securities. If the Adviser's investment strategies do not produce the expected results, the value of your investment could be diminished or even lost entirely.

Master Limited Partnerships. The Fund may invest in master limited partnerships ("MLPs") that have exposure to renewable energy activities. Companies involved with renewable energy can be affected significantly by factors such as supply and demand for energy, availability and cost of traditional energy

sources, consumer preference, and government regulations, including subsidies. MLPs are limited partnerships or limited liability companies, whose partnership units or limited liability interests are listed and traded on a U.S. securities exchange, and are treated as publicly traded partnerships for federal income tax purposes. Publicly traded partnerships could be treated as corporations to the extent they do not satisfy the gross income test. To satisfy the gross income test and thus qualify to be treated as a partnership for federal income tax purposes, an MLP must receive at least 90% of its income from qualifying sources as set forth in Section 7704(d) of the Internal Revenue Code of 1986, as amended (the "Code"). These qualifying sources include activities such as the exploration, development, mining, production, processing, refining, transportation, storage and marketing of mineral or natural resources. MLPs generally have two classes of owners, the general partner and limited partners. MLPs that are formed as limited liability companies generally have two analogous classes of owners, the managing member and the members. For purposes of this section, references to general partners also apply to managing members and references to limited partners also apply to members. The general partner is typically owned by a major energy company, an investment fund, the direct management of the MLP or is an entity owned by one or more of such parties. The general partner may be structured as a private or publicly traded corporation or other entity. The general partner typically controls the operations and management of the MLP through an equity interest of as much as 2% in the MLP plus, in many cases, ownership of common units and subordinated units. Limited partners own the remainder of the MLP through ownership of common units and have a limited role in the MLP's operations and management.

An investment in MLP units involves certain risks which differ from an investment in the securities of a corporation. Holders of MLP units have limited control and voting rights on matters affecting the partnership. In addition, there are certain tax risks associated with an investment in MLP units and conflicts of interest exist between common unit holders and the general partner, including those arising from incentive distribution payments. An MLP that is treated as a partnership for federal income tax purposes is not liable for federal income tax at the entity level. As a partnership, an MLP has no tax liability at the entity level. If, as a result of a change in current law or a change in an MLP's business, an MLP were treated as a corporation for federal income tax purposes, such MLP would be obligated to pay federal income tax on its income at the corporate tax rate. If an MLP were classified as a corporation for federal income tax purposes, the amount of cash available for distribution by the MLP would be reduced and distributions received by investors would be taxed under federal income tax laws applicable to corporate dividends (as dividend income, return of capital, or capital gain). Therefore, treatment of an MLP as a corporation for federal income tax purposes would result in a reduction in the after-tax return to investors, likely causing a reduction in the value of the Fund's shares.

New Fund Risk. The Fund is a newly registered mutual fund and does not have operating history as a mutual fund. There can be no assurance that the Fund will grow to or maintain an economically viable size, in which case the Board of Trustees may determine to liquidate the Fund. Liquidation of the Fund can be initiated without shareholder approval by the Board of Trustees if it determines that liquidation is in the best interests of shareholders. As a result, the timing of any liquidation may not be favorable to certain individual shareholders.

Other Investment Company and Exchange-Traded Fund Risk. The Fund may from time to time rely on Section 12(d)(1)(F) of the 1940 Act with respect to its investments in other investment companies, including ETFs. Section 12(d)(1) of the 1940 Act precludes the Fund from acquiring: (i) more than 3% of the total outstanding shares of another investment company; (ii) shares of another investment company having an aggregate value in excess of 5% of the value of the total assets of the Fund; or (iii) shares of another registered investment company and all other investment companies having an aggregate value in excess of 10% of the value of the total assets of the Fund. However, Section 12(d)(1)(F) of the 1940 Act provides that the provisions of paragraph 12(d) shall not apply to securities purchased or otherwise acquired by the Fund if: (i) immediately after such purchase or acquisition not more than 3% of the total outstanding shares of such investment company is owned by the Fund and all affiliated persons of the Fund; and (ii) the Fund has not offered or sold, and is not proposing to offer or sell its shares through a

principal underwriter or otherwise at a public or offering price that includes a sales load of more than 1 1/2%.

The Fund may also rely on Rule 12d1-4 of the 1940 Act, which provides an exemption from Section 12(d)(1) that allows the Fund to invest all of its assets in other registered funds, including ETFs, if the Fund satisfies certain conditions specified in the Rule, including, among other conditions, that the Fund and its advisory group will not control (individually or in the aggregate) an acquired fund (*e.g.*, hold more than 25% of the outstanding voting securities of an acquired fund that is a registered open-end management investment company).

When the Fund invests in other investment companies, including ETFs, it will bear additional expenses based on its pro rata share of the other investment company's operating expenses, including the potential duplication of management fees. The risk of owning another investment company generally reflects the risks of owning the underlying investments the other investment company holds. The Fund also will incur brokerage costs when it purchases and sells investment company shares. ETFs may trade at a discount or premium to NAV. There can be no assurance that an active trading market for an ETF's shares will exist. There are greater risks involved in investing in securities with limited market liquidity.

Preferred Stock Risk. The Fund may invest in preferred stock. A preferred stock is a blend of the characteristics of a bond and common stock. It can offer the higher yield of a bond and has priority over common stock in equity ownership, but does not have the seniority of a bond and, unlike common stock, its participation in the issuer's growth may be limited. Preferred stock has preference over common stock in the receipt of dividends and in any residual assets after payment to creditors should the issuer be dissolved. Although the dividend on a preferred stock may be set at a fixed annual rate, in some circumstances it can be changed or omitted by the issuer.

Real Estate Risk. Investments in real estate-related companies are subject to numerous risks, including, but not limited to, adverse changes in general economic and local market conditions; adverse developments in employment or local economic performance; changes in supply or demand for similar or competing properties; unfavorable changes in applicable taxes, governmental regulations or interest rates, and lack of available financing. Real estate-related companies in which the Fund invests may improve or operate real properties as well as buying and selling them, and accordingly those investments are also subject to risks associated with improving and operating property, such as the inability to maintain rental rates and occupancy levels in highly competitive markets, unavailability or increases in the cost of insurance, unexpected increases in the costs of refurbishment and improvements, unfavorable rent control laws and costs of complying with environmental regulations.

REIT Risk. The Fund may invest indirectly in real estate by investing in REITs. These investments are subject to numerous risks, including, but not limited to, adverse changes in general economic and local market conditions, adverse developments in employment or local economic performance, changes in supply or demand for similar or competing properties, unfavorable changes in applicable taxes, governmental regulations or interest rates, and lack of available financing. The REITs in which the Fund invests may improve or operate real properties as well as buying and selling them, and accordingly those investments are also subject to risks associated with improving and operating property, such as the inability to maintain rental rates and occupancy levels in highly competitive markets, unavailability or increases in the cost of insurance, unexpected increases in the costs of refurbishment and improvements, unfavorable rent control laws and costs of complying with environmental regulations. If a REIT fails to qualify as a REIT under the Code, then the REIT could become taxable as a corporation, which would likely have an adverse impact on the value of the Fund's investment. The Fund will generally have no control over the operations and policies of a REIT, and the Fund generally will have no ability to cause a REIT to take the actions necessary to qualify as a REIT under the Code.

In general, qualified REIT dividends that an investor receives directly from a REIT are automatically eligible for the 20% qualified business income deduction. The IRS has issued final Treasury Regulations

that permit a dividend or part of a dividend paid by a regulated investment company and reported as a “section 199A dividend” to be treated by the recipient as a qualified REIT dividend for purposes of the 20% qualified business income deduction, if certain holding period and other requirements have been satisfied by the recipient with respect to its Fund shares. The final Treasury Regulations do not extend such conduit treatment to qualified publicly traded partnership income, as defined under Section 199A of the Code, earned by a regulated investment company. Therefore, non-corporate shareholders may not include any qualified publicly traded partnership income earned through the Fund in their qualified business income deduction. The IRS and Treasury Department are continuing to evaluate whether it is appropriate to provide such conduit treatment.

Recent Markets Events. U.S. and international markets have experienced volatility in recent months and years due to a number of economic, political and global macro factors, including the impact of the coronavirus (COVID-19) global pandemic, which has resulted in a public health crisis, business interruptions, growth concerns in the U.S. and overseas, layoffs, rising unemployment claims, changed travel and social behaviors and reduced consumer spending. The effects of COVID-19 may lead to a substantial economic downturn or recession in the U.S. and global economies, the recovery from which is uncertain and may last for an extended period of time. Uncertainties regarding interest rates, political events, rising government debt in the U.S. and trade tensions have also contributed to market volatility. Global economies and financial markets are increasingly interconnected, which increases the possibility that conditions in one country or region might adversely impact issuers in a different country or region. In particular, a rise in protectionist trade policies, slowing global economic growth, risks associated with epidemic and pandemic diseases, risks associated with the United Kingdom’s departure from the European Union, the risk of trade disputes, and the possibility of changes to some international trade agreements, could affect the economies of many nations, including the United States, in ways that cannot necessarily be foreseen at the present time. Continuing market volatility as a result of recent market conditions or other events may have adverse effects on your account.

Sector Risk. Due to the Fund’s focus on climate change mitigation or adaptation products and services, the Fund’s portfolio, as compared to broader benchmarks, is expected to typically have more meaningful exposure to companies operating in the Industrial sectors and to have reduced exposure to the Communication Services, traditional Energy, Financials and Real Estate sectors. The Industrial sector includes companies engaged in the manufacture and distribution of capital goods, such as those used in defense, construction and engineering, companies that manufacture and distribute electrical equipment and industrial machinery and those that provide commercial and transportation services and supplies. Companies in the Industrial sector may be adversely affected by changes in government regulation, world events and economic conditions. In addition, companies in the Industrial sector may be adversely affected by environmental damages, product liability claims and exchange rates. The success of these companies is affected by supply and demand both for their specific product or service and for Industrial sector products in general. The products of manufacturing companies may face product obsolescence due to rapid technological developments and frequent new product introduction. In addition, the Industrial sector may also be adversely affected by changes or trends in commodity prices, which may be unpredictable. As a result, the Fund’s investment returns may underperform the market in periods where the Industrial sectors underperform other sectors. Potential negative market or economic developments affecting one or more of the sectors in which the Fund’s investments are concentrated could have a greater impact on the Fund than on a fund with fewer holdings in the impacted sectors.

Small and Medium Capitalization Companies Risk. Investing in securities of small and medium capitalization companies may involve greater volatility than investing in larger and more established companies because medium capitalization companies can be subject to more abrupt or erratic share price changes than larger, more established companies. Small and medium capitalization companies may have limited product lines, markets or financial resources and their management may be dependent on a limited number of key individuals. Securities of those companies may have limited market liquidity and their prices may be more volatile.

Tax Risk. The Fund's investments could be affected by any changes to the federal income tax deduction for interest paid on fixed income securities. Any proposed or actual changes to the tax deduction for interest paid could significantly affect the supply of and market for fixed income securities.

Valuation Risk. The prices provided by the Fund's pricing service or independent dealers or the fair value determinations made by the valuation committee of the Board of Trustees may be different from the prices used by other mutual funds or from the prices at which securities are actually bought and sold. The prices of certain securities provided by pricing services may be subject to frequent and significant change, and will vary depending on the information that is available.

Volatility of Financial Markets; Risks of Certain Investment Strategies; Directional Risk. Recently, the financial markets have evidenced an exceptional level of volatility. Continued volatility could disrupt the investment strategy of the Fund, decrease the value of the Fund's portfolio and adversely impact its profitability or performance. Moreover, markets continue to react to global macroeconomic and political events. As a result, the securities of a particular company may decline in value at a time when that company has strong fundamentals. The Fund will not engage in short selling and will generally not seek to hedge market risk. Accordingly, the performance of the Fund can be expected to generally track the trends of relevant market indices although this may not always be the case and there may be periods of time where the Fund's performance diverges significantly from such indices.

Warrants and Rights. The Fund may invest in warrants. However, not more than 10% of the Fund's total assets (at the time of purchase) will be invested in warrants other than warrants acquired in units or attached to other securities. Warrants are pure speculation in that they have no voting rights, pay no dividends and have no rights with respect to the assets of the corporation issuing them. Warrants basically are options to purchase equity securities at a specific price valid for a specific period of time. They do not represent ownership of the securities, but only the right to buy them. Warrants differ from call options in that warrants are issued by the issuer of the security that may be purchased on their exercise, whereas call options may be written or issued by anyone. The prices of warrants do not necessarily move parallel to the prices of the underlying securities. Rights represent a preemptive right to purchase additional shares of stock at the time of new issuance, before stock is offered to the general public, so that the stockholder can retain the same ownership percentage after the offering.

More detailed information about the Fund, its investment policies and risks can be found in the Fund's Statement of Additional Information ("SAI").

Portfolio Holdings Information

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio holdings is available in the SAI. Disclosure of the Fund's holdings is required to be made quarterly within 60 days of the end of each fiscal quarter, in the annual and semi-annual reports to Fund shareholders and in the quarterly holdings report on Part F of Form N-PORT. The annual and semi-annual reports to Fund shareholders will be available by contacting the Rockefeller Funds, c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, WI 53201-0701 or calling 1-855-369-6209, or by visiting the Fund's website at www.rockefellerfunds.com. The Fund's filings on Part F of Form N-PORT will be available on the SEC's website at www.sec.gov.

Management of the Fund

The Adviser

The Fund has entered into an investment advisory agreement (the “Advisory Agreement”) with Rockefeller & Co. LLC, located at 45 Rockefeller Plaza, Fifth Floor, New York, NY 10111. The Adviser is registered as an investment adviser with the SEC, and offers global investing and wealth management services to a wide variety of individual and institutional investors. As of May 31, 2021, the Adviser managed approximately \$21 billion in assets. Under the Advisory Agreement, the Adviser has overall responsibility for the general management and investment of the Fund’s investment portfolio, subject to the supervision of the Board of Trustees. The Fund compensates the Adviser for its services at the annual rate of 0.85% of the Fund’s average annual net assets, payable on a monthly basis in arrears.

Fund Expenses. The Fund is responsible for its own operating expenses. However, pursuant to an operating expense limitation agreement between the Adviser and the Trust, on behalf of the Fund, the Adviser has agreed to waive its fees and/or reimburse expenses to ensure that the Fund’s total annual fund operating expenses (exclusive of front-end or contingent deferred loads, taxes, leverage, interest, brokerage commissions, expenses incurred in connection with any merger or reorganization, dividends or interest expenses on short positions, acquired fund fees and expenses or extraordinary expenses such as litigation) does not exceed 0.99% of the Fund’s average daily net assets through July 20, 2023. Any waiver of advisory fees or payment of expenses made by the Adviser may be reimbursed by the Fund in subsequent years if requested by the Adviser and the aggregate amount actually paid by the Fund toward operating expenses for such fiscal year (taking into account the reimbursement) does not exceed the applicable limitation on the Fund’s expenses at the time of waiver. The Adviser may request recoupment of previously waived fees and paid expenses from the Fund for up to three years from the date such fees and expenses were waived or paid, subject to the operating expense limitation agreement, if such reimbursements will not cause the Fund’s expense ratio, after recoupment has been taken into account, to exceed the lesser of: (1) the expense limitation in place at the time of the waiver and/or expense payment; or (2) the expense limitation in place at the time of the recoupment. Any such reimbursement will be reviewed by the Board of Trustees. This operating expense limitation agreement may be terminated at any time at the discretion of the Board of Trustees.

A discussion regarding the basis of the Board of Trustees’ approval of the Advisory Agreement will be included in the Fund’s annual report to shareholders for the period ended November 30, 2021.

The Adviser also serves as investment adviser to the Rockefeller Equity Allocation Fund, Rockefeller Core Taxable Bond Fund, Rockefeller Intermediate Tax Exempt National Bond Fund and Rockefeller Intermediate Tax Exempt New York Bond Fund, each an open-end mutual fund, which are currently offered in a separate prospectus and SAI.

Portfolio Managers

Casey C. Clark, CFA[®], is a Managing Director, Global Head of Environmental, Social and Governance (ESG) Investments & Portfolio Manager for the Adviser. Mr. Clark has served as a co-portfolio manager of the Fund since the Fund commenced operations in July 2021. Mr. Clark leads ESG research & engagement efforts across investment strategies within the Adviser and serves as a Portfolio Manager on thematic equity offerings, including Rockefeller’s Climate Solutions Strategy. In this role, he is responsible for helping to generate alpha and positive outcomes while overseeing a team that specializes across three core ESG-integrated functions: (1) Fundamental research, (2) Quantitative research, and (3) Shareholder engagement. He is a member of the firm’s Management Committee. Prior to joining Rockefeller in 2019, Mr. Clark worked as Managing Director and Director of Sustainable and Impact Investing at Glenmede, where he helped launch and build Glenmede’s sustainable and impact investing business. Mr. Clark has authored numerous investment and sustainability-related publications and has

been featured in several print and broadcast media segments. He is a graduate of Pennsylvania State University, earned his MBA from the Stern School of Business at New York University, and retains the Charter Financial Analyst® charterholder designation.

Rolando F. Morillo, is a Senior Vice President and serves as a Portfolio Manager for the Adviser's thematic equity offerings, including the Climate Solutions Strategy. Mr. Morillo has served as a co-portfolio manager of the Fund since the Fund commenced operations in July 2021. He also contributes across strategies as a Senior ESG Research & Engagement Analyst. Prior to joining the ESG Team, he worked as an Equity Analyst, focused on Latin America and renewable energy. Mr. Morillo worked at UBS Private Banking-Latin America Division as a portfolio assistant before coming to the Adviser in 2000. He holds a B.S. in Environmental Economics and Geography from Rutgers University, has completed studies in Seville, Spain, and is pursuing an Executive MBA from the Stern School of Business at New York University. Mr. Morillo serves on the board of directors for the foundation arm of the American Rainwater Catchment Systems Association (ARCSA).

The SAI provides additional information about the portfolio managers' compensation, other accounts managed and ownership of securities in the Fund.

CFA® is a registered trademark owned by the CFA Institute.

Shareholder Information

Choosing a Share Class

The Fund offers Institutional Class and Class A shares in this Prospectus. The different classes of shares represent investments in the same portfolio of securities, but the classes are subject to different expenses and may have different share prices as outlined below. You should always discuss the suitability of your investment with your financial intermediary or financial adviser.

Institutional Class Shares

Institutional Class shares are offered for sale at NAV without the imposition of a sales charge or shareholder servicing fee. Institutional Class shares are offered primarily to institutions such as pension and profit sharing plans, employee benefit trusts, endowments, foundations, corporations and high net worth individuals. Institutional Class shares may also be offered through certain financial intermediaries that charge their customers transaction or other distribution or service fees with respect to their customers' investments in the Fund. Pension and profit sharing plans, employee trusts and employee benefit plan alliances and "wrap account" or "managed fund" programs established with broker-dealers or financial intermediaries that maintain an omnibus or pooled account for the Fund and do not require the Fund to pay a fee may purchase Institutional Class shares, subject to investment minimums.

Class A Shares

You pay a sales charge when you invest in Class A shares of the Fund, unless you are qualifying for a reduction or waiver. There are several ways to reduce this charge. See the section "Sales Charge Reductions and Waivers" below.

You do not pay a sales charge on purchases of Class A shares in amounts of \$500,000 or more, however, you may be subject to a contingent deferred sales charge ("CDSC") of 1.00% if you redeem these shares within 12 months of purchase.

Without a reduction or waiver, the price that you pay when you buy Class A shares (the "offering price") is their NAV plus a sales charge (sometimes called a "front-end sales charge" or "load"), which varies depending upon the size of your purchase. The sales charge for Class A shares of the Fund is calculated as follows:⁽¹⁾

Investment Amount	Sales Charge as a % of Offering Price	Sales Charge as a % of Net Amount Invested	Dealer Allowance
Less than \$50,000 ⁽²⁾	5.25%	5.54%	5.00%
\$50,000 but less than \$100,000	4.75%	4.99%	4.50%
\$100,000 but less than \$250,000	3.75%	3.90%	3.50%
\$250,000 but less than \$500,000	2.75%	2.83%	2.50%
\$500,000 or more ⁽³⁾⁽⁴⁾	0.00%	0.00%	0.00%

⁽¹⁾ The offering price is calculated to two decimal places using standard rounding criteria. As a result, the number of shares purchased and the dollar amount of the sales charge as a percentage of the offering price and of your net investment may be higher or lower depending on whether there was downward or upward rounding.

⁽²⁾ The minimum initial investment for Class A shares of the Fund is \$2,500.

⁽³⁾ There is no front-end sales charge for purchases of Class A shares of \$500,000 or more. However, a CDSC of 1.00% may be applied to redemptions of Class A shares within 12 months of purchase.

⁽⁴⁾ A finder's fee of 1.00% will be paid directly by the Adviser to the dealer on investments of \$500,000 or more.

Information about sales charges, including applicable waivers, breakpoints, and discounts to the sales charges, is fully disclosed in this Prospectus, which is available, free of charge, on the Fund's website at www.rockefellerfunds.com. The Fund believes it is very important that an investor fully consider all aspects of their investment and be able to access all relevant information in one location. Therefore, the Fund does not make the sales charge information available to investors on the website independent of the Prospectus.

Class A Sales Charge Reductions and Waivers

Reducing Front-End Sales Charges. There are several ways you can lower your sales charge for Class A shares. To receive a reduction in your Class A sales charge, you must let your financial institution or shareholder services representative know at the time you purchase shares that you qualify for such a reduction. You may be asked by your financial adviser or shareholder services representative to provide account statements or other information regarding your related accounts or related accounts of your immediate family members in order to verify your eligibility for a reduced sales charge. Your investment professional or financial institution must notify the Fund if your share purchase is eligible for the sales load waiver. Sales charges will not be applied to shares purchased by reinvesting distributions.

Rights of Accumulation. You may combine your current purchase of Class A shares of the Fund with other existing Class A shares currently owned for the purpose of qualifying for the lower initial sales charge rates that apply to larger purchases. The applicable sales charge for the new purchase is based on the total of your current purchase and the current value of all other Class A shares purchased in accounts at the public offering price and the value of the Class A shares you own at the NAV at the financial intermediary at which you are making the current purchase. You may not aggregate shares held at different financial intermediaries. If the current purchase is made directly through the Fund's Transfer Agent, U.S. Bancorp Fund Services, LLC (the "Transfer Agent"), only those shares held directly at the Transfer Agent may apply toward the right of accumulation. You may aggregate shares that you own and that are currently owned by members of your "immediate family" including your spouse, child, stepchild, parent, stepparent, sibling, grandchild and grandparent, including in-law and adoptive relationships residing at the same address. Shares held in the name of a nominee or custodian under pension, profit sharing or employee benefit plans may not be combined with other shares to qualify for the right of accumulation. You must notify the Transfer Agent or your financial intermediary at the time of purchase in order for the right of accumulation to apply. The Fund is not liable for any difference in purchase price if you fail to notify the Transfer Agent of your intent to exercise your right of accumulation and the Fund reserves the right to modify or terminate this right at any time.

Reinstatement Privilege. If you redeem Class A shares of the Fund, and within 60 days purchase and register new Class A shares, you will not pay a sales charge on the new purchase amount. The amount eligible for this privilege may not exceed the amount of your redemption proceeds. To exercise this privilege, contact the Transfer Agent or your financial intermediary.

Letter of Intent. By signing a Letter of Intent (“LOI”), you can reduce your Class A sales charge. Your individual purchases will be made at the applicable sales charge based on the amount you intend to invest over a 13-month period. The LOI will apply to all purchases of Class A shares. Any Class A shares purchased within 90 days of the date you sign the letter of intent may be used as credit toward completion, but the reduced sales charge will only apply to new purchases made on or after that date. Purchases resulting from the reinvestment of distributions do not apply toward fulfillment of the LOI. Shares equal to 5.25% of the amount of the LOI will be held in escrow during the 13-month period. If at the end of that time the total amount of purchases made is less than the amount intended, you will be required to pay the difference between the reduced sales charge and the sales charge applicable to the individual purchases had the LOI not been in effect. This amount will be obtained from redemption of the escrow shares. Any remaining escrow shares will be released to you.

Investments of \$500,000 or More. There is no initial sales charge on a lump sum Class A share purchase of \$500,000 or more, nor on any purchase into a Class A account with an accumulated value of \$500,000 or more. However, if you have taken advantage of this waiver and redeem your shares within 12 months of purchase, there is a CDSC of 1.00% imposed on such shares based on the lesser of original cost or current market value. However, the CDSC will not apply if you are otherwise entitled to a waiver of the initial sales charge as listed in “Initial Sales Charge Waivers” below. Also, the CDSC will not apply if you are entitled to a waiver as listed in “Contingent Deferred Sales Charges Waivers,” below.

Initial Sales Charge Waivers. Sales charges for Class A shares may be waived under certain circumstances for some investors or for certain purchases. You will not have to pay a sales charge on purchases of Class A shares if:

- you are an affiliate of the Adviser or any of its or the Fund’s officers, directors, trustees, employees or retirees;
- you are a registered representative of any broker-dealer authorized to sell Fund shares, subject to the internal policies and procedures of the broker-dealer;
- you are a member of the immediate family of any of the foregoing (*i.e.*, parent, child, spouse, domestic partner, sibling, step or adopted relationships, grandparent, grandchild and UTMA accounts naming qualifying persons);
- you are a fee-based registered investment adviser, financial planner, bank trust department or registered broker-dealer and are purchasing shares on behalf of your customers;
- you are purchasing shares for retirement (not including IRA accounts) and deferred compensation plans or the trusts used to fund such plans (including, but not limited to, those defined in Sections 401(k), 403(b) and 457 of the Code, and “rabbi trusts”), for which an affiliate of the Adviser acts as trustee or administrator;
- you are purchasing shares for a 401(k), 403(b) or 457 plan, and profit sharing and pension plans that invest \$500,000 or more or have more than 100 participants;
- you are a current shareholder whose aggregate investment in Class A shares of the Fund exceeds \$500,000 subject to the conditions noted above; or
- you are an individual on certain accounts under investment programs managed by the Adviser.

Information about sales charges, including applicable waivers, breakpoints, and discounts to the sales charges, is fully disclosed in this Prospectus, which is available, free of charge, on the Fund’s website at www.rockefellerfunds.com. The Fund believes that it is very important that an investor fully consider all

aspects of their investment and be able to access all relevant information in one location. Therefore, the Fund does not make all sales charge information available to investors on the website independent of the Prospectus. If you would like information about sales charge waivers, call your financial representative or contact the Fund at 1-855-369-6209.

The Fund reserves the right to modify or eliminate these programs at any time.

Contingent Deferred Sales Charge Waivers. For Class A shares, a CDSC is imposed on shares purchased at the \$500,000 breakpoint (as described in “Sales Charge on Class A Shares,” above) that are redeemed within 12 months of purchase. In the case of a partial redemption, the first shares redeemed are any reinvested shares. After that, shares are always redeemed on a “first in first out” basis. If the first shares redeemed have been held for longer than 12 months from the date of purchase, then no sales charge is imposed on the redemption. The sales charge is imposed on a lot by lot basis on the market value or initial purchase price, whichever is lower. This deferred sales charge may be waived under certain circumstances such as:

- death of the shareholder;
- divorce, where there exists a court decree that requires redemption of the shares;
- return of IRA excess contributions;
- shares redeemed by the Fund due to low balance or other reasons; and
- required minimum distributions at the required minimum distribution age (waivers apply only to amounts necessary to meet the required minimum amount based on assets held within the Fund).

Rule 12b-1 Distribution and Shareholder Servicing Plan

The Fund has adopted a Distribution and Shareholder Servicing Plan (the “Distribution Plan”) pursuant to Rule 12b-1 under the 1940 Act. Under the Distribution Plan, the Fund is authorized to pay the Distributor a fee for the sale and distribution of the Fund’s Class A shares and services it provides to Class A shareholders. The maximum amount of the fee authorized is an annual rate of 0.25% of the Fund’s average daily net assets attributable to Class A shares annually. Because these fees are paid out of the Fund’s assets attributable to Class A shares on an on-going basis, over time these fees will increase the cost of your investment in Class A shares of the Fund and may cost you more than paying other types of sales charges.

Share Price

The price of the Fund’s shares is its NAV. The NAV per share is calculated by dividing the value of the Fund’s total assets, less its liabilities, by the number of its shares outstanding. In calculating the NAV, portfolio securities are valued using current market values or official closing prices, if available. The NAV is calculated at the close of regular trading on the NYSE, (generally 4:00 p.m., Eastern time). The NAV will not be calculated on days on which the NYSE is closed for trading. If the NYSE closes early, the Fund will calculate its NAV as of the close of trading on the NYSE on that day. If an emergency exists as permitted by the SEC, the NAV may be calculated at a different time.

Each equity security owned by the Fund that is listed on a national securities exchange, except for portfolio securities listed on the NASDAQ Stock Market, LLC (“NASDAQ”), is valued at its last sale price on that exchange at the close of the exchange, on the date as of which assets are valued. If a security is listed on more than one exchange, the Fund will use the price on the exchange that the Fund generally considers to be the principal exchange on which the security is traded.

Portfolio securities listed on NASDAQ will be valued at the NASDAQ Official Closing Price (“NOCP”), which may not necessarily represent the last sale price. If the NOCP is not available, such securities shall be valued at the last sell price on the day of valuation. If there has been no sale on such exchange or on NASDAQ on such day, the security is valued at the mean between the most recent quoted bid and asked

prices at the close of the exchange on such day or the security is valued at the latest sales price on the “composite market” for the day such security is being valued. The composite market is defined as the consolidation of the trade information provided by national securities and foreign exchanges and over-the-counter (“OTC”) markets as published by an approved independent pricing service (“Pricing Service”).

Exchange-traded options are valued at the composite price, using the National Best Bid and Offer quotes. If there are no trades for the option on a given business day, composite option pricing calculates the mean of the highest bid price and lowest ask price across the exchanges where the option is traded. Option contracts on securities, currencies and other financial instruments traded in the OTC market with less than 180 days remaining until their expiration are valued at the evaluated price provided by the broker-dealer with which the option was traded. Option contracts on securities, currencies and other financial instruments traded in the OTC market with 180 days or more remaining until their expiration are valued at the prices provided by a recognized independent broker-dealer.

Debt securities, including short-term debt securities and money market instruments with a maturity of 60 days or less, are valued at the mean in accordance with prices supplied by a Pricing Service. Pricing services may use various valuation methodologies such as the mean between the bid and asked prices, matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. Where the price of a debt security is not available from a Pricing Service, the most recent quotation from one or more broker-dealers known to follow the issue will be obtained. Quotations will be valued at the mean between the bid and the offer. Any discount or premium is accreted or amortized using the “constant yield” method until maturity. When the Fund buys a when-issued, new issue or delayed delivery debt security and the security is not yet being traded or priced by a Pricing Service, the security will be valued at cost. Thereafter, the security will be valued at its market value (if it has commenced trading or is priced by a Pricing Service) or its fair value if the security has not commenced trading or is not priced by a Pricing Service for more than five days. Forward currency contracts are valued at the mean between the bid and asked prices.

If market quotations are not readily available or are deemed unreliable, a security or other asset will be valued at its fair value as determined under fair value pricing procedures approved by the Board of Trustees. These fair value pricing procedures will also be used to price a security when corporate events, events in the securities market or world events cause the Adviser to believe that the security’s last sale price may not reflect its actual fair market value. The intended effect of using fair value pricing procedures is to ensure that shares of the Fund are accurately priced. The Board of Trustees will regularly evaluate whether the Fund’s fair value pricing procedures continue to be appropriate in light of the specific circumstances of the Fund and the quality of prices obtained through their application by the Trust’s Valuation Committee.

When fair value pricing is employed, the prices of securities used by the Fund to calculate its NAV may differ from quoted or published prices for the same securities. Due to the subjective and variable nature of fair value pricing, it is possible that the fair value determined for a particular security may be materially different (higher or lower) from the price of the security quoted or published by others or the value when trading resumes or is realized upon its sale. Therefore, if a shareholder purchases or redeems Fund shares when it holds securities priced at a fair value, the number of shares purchased or redeemed may be higher or lower than it would be if the Fund were using market-value pricing. The Adviser anticipates that the Fund’s portfolio holdings will be fair valued only if market quotations for those holdings are not readily available or are considered unreliable.

In the case of foreign securities, the occurrence of certain events after the close of foreign markets, but prior to the time the Fund’s NAV is calculated (such as a significant surge or decline in the U.S. or other markets) often will result in an adjustment to the trading prices of foreign securities when foreign markets open on the following business day. If such events occur, the Fund will value foreign securities at fair value, taking into account such events, in calculating the NAV. In such cases, use of these evaluated prices can reduce an investor’s ability to seek to profit by estimating the Fund’s NAV in advance of the time the NAV is calculated. In the event the Fund holds portfolio securities that trade in foreign markets or that are

primarily listed on foreign exchanges that trade on weekends or other days when the Fund does not price its shares, the Fund’s NAV may change on days when shareholders will not be able to purchase or redeem the Fund’s shares.

How to Purchase Shares

All purchase requests received in good order by the Fund’s Transfer Agent or by an authorized financial intermediary (an “Authorized Intermediary,” as defined below) before the close of the NYSE (generally 4:00 p.m., Eastern time) will be processed at that day’s NAV per share. Purchase requests received by the Transfer Agent or an Authorized Intermediary after the close of the NYSE (generally 4:00 p.m., Eastern time) will receive the next business day’s NAV per share. An Authorized Intermediary is a financial intermediary (or its authorized designee) that has made arrangements with the Fund to receive purchase and redemption orders on its behalf. For additional information about purchasing shares through financial intermediaries, please see “Purchasing Shares Through a Financial Intermediary,” below.

All account applications (each an “Account Application”) to purchase Fund shares are subject to acceptance by the Fund and are not binding until so accepted. It is the policy of the Fund not to accept applications under certain circumstances or in amounts considered disadvantageous to other shareholders. Your order will not be accepted until the Fund or the Transfer Agent receives a completed Account Application. The Fund reserves the right to reject any Account Application.

The Fund reserves the right to reject any purchase order if, in its discretion, it is in the Fund’s best interest to do so. For example, a purchase order may be refused if it appears so large that it would disrupt the management of the Fund. Purchases may also be rejected from persons believed to be “market-timers,” as described under “Tools to Combat Frequent Transactions,” below. In addition, a service fee, which is currently \$25, as well as any loss sustained by the Fund, will be deducted from a shareholder’s account for any payment that is returned to the Transfer Agent unpaid. Written notice of a rejected purchase order will be provided to the investor within one or two business days under normal circumstances. The Fund and the Transfer Agent will not be responsible for any losses, liability, cost or expense resulting from rejecting any purchase order. Your order will not be accepted until a completed Account Application is received by the Fund or the Transfer Agent.

Shares of the Fund have not been registered for sale outside of the United States. The Fund generally does not sell shares to investors residing outside the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses.

Minimum Investment Amounts

<u>Share Purchase Amounts</u>	<u>Institutional Class</u>	<u>Class A</u>
Minimum Initial Investment	\$1,000,000	\$2,500
Minimum Subsequent Investment	\$10,000	\$1,000

The Fund reserves the right to waive or change the minimum initial investment or minimum subsequent investment amounts in its sole discretion. Shareholders will be given at least 30 days’ written notice of any increase in the minimum dollar amount of initial or subsequent investments. The minimum investment may be modified for certain financial intermediaries that submit trades on behalf of underlying investors. Certain intermediaries also may have investment minimums, which may differ from the Fund’s minimums, and may be waived at the intermediaries’ discretion. For accounts sold through financial intermediaries, it is the primary responsibility of the financial intermediary to ensure compliance with investment minimums.

Purchase Requests Must be Received in Good Order

Your share price will be the next calculated NAV per share, after the Transfer Agent or your Authorized Intermediary receives your purchase request in good order. For purchases made through the Transfer Agent, “good order” means that your purchase request includes:

- the name of the Fund and share class you are investing in;
- the dollar amount of shares to be purchased;
- your Account Application or investment stub; and
- a check payable to the Fund you are investing in.

For information about your financial intermediary’s requirements for purchases in good order, please contact your financial intermediary.

Purchase by Mail. To purchase Fund shares by mail, simply complete and sign the Account Application and mail it, together with your check made payable to the Fund, to one of the addresses below. To make additional investments once you have opened your account, write your account number on the check and send it together with the Invest by Mail form from your most recent confirmation statement received from the Transfer Agent. If you do not have the Invest by Mail form, include the Fund name and your name, address, and account number on a separate piece of paper and mail it with your check made payable to the Fund to:

Regular Mail

Rockefeller Climate Solutions Fund
c/o U.S. Bank Global Fund Services
P.O. Box 701
Milwaukee, WI 53201-0701

Overnight or Express Mail

Rockefeller Climate Solutions Fund
c/o U.S. Bank Global Fund Services
615 East Michigan Street, 3rd Floor
Milwaukee, WI 53202

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent’s post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent’s offices. All purchase checks must be in U.S. dollars drawn on a domestic financial institution. The Fund will not accept payment in cash or money orders. To prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler’s checks or starter checks for the purchase of shares. The Fund is unable to accept post-dated checks or any conditional order or payment.

Purchase by Wire. If you are making your first investment in the Fund through a wire purchase, the Transfer Agent must have a completed Account Application before you wire funds. You can mail or use an overnight service to deliver your Account Application to the Transfer Agent at the above address. Upon receipt of your completed Account Application, the Transfer Agent will establish an account for you. Once your account has been established, you may instruct your bank to send the wire. Prior to sending the wire, please call the Transfer Agent at 1-855-369-6209 to advise it of the wire and to ensure proper credit upon receipt. Your bank must include the name of the Fund in which you are investing, your name and your account number so that monies can be correctly applied. Your bank should transmit immediately available funds by wire to:

Wire to: U.S. Bank National Association
777 East Wisconsin Avenue
Milwaukee, Wisconsin 53202

ABA Number: 075000022

Credit: U.S. Bancorp Fund Services, LLC

Account: 112-952-137

Further Credit: Rockefeller Climate Solutions Fund (Name of the Fund you are investing in)
(Shareholder Name/Account Registration)
(Shareholder Account Number)

Wired funds must be received prior to the close of the NYSE (generally 4:00 p.m., Eastern time) to be eligible for same day pricing. The Fund and U.S. Bank National Association, the Fund's custodian, are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions.

Investing by Telephone. Purchase privileges are automatically provided unless you decline the option on your Account Application. If your account has been open for at least 7 days, you may purchase additional shares by calling the Fund toll free at 1-855-369-6209. You must also have submitted a voided check or a savings deposit slip to have banking information established on your account. This option allows investors to move money from their bank account to their Fund account upon request. Only bank accounts held at domestic financial institutions that are Automated Clearing House ("ACH") members may be used for telephone transactions. Telephone purchases are subject to applicable minimum investment amounts for subsequent investments. If your order is received prior to the close of the NYSE (generally 4:00 p.m., Eastern time), shares will be purchased in your account at the applicable price determined on the day your order is placed. During periods of high market activity, shareholders may encounter higher than usual call waiting times. Please allow sufficient time to place your telephone transaction.

Automatic Investment Plan. For your convenience, the Fund offers an Automatic Investment Plan ("AIP"). Once your account has been opened with the initial minimum investment you may make additional purchases at regular intervals through the AIP. The AIP provides a convenient method to have monies deducted from your bank account, for investment into the Fund, on a monthly, quarterly, semi-annual or annual basis. In order to participate in the AIP, each purchase must be in the amount of \$100 or more, and your financial institution must be a member of the ACH network. The Fund may terminate or modify this privilege at any time. You may terminate your participation in the AIP at any time by notifying the Transfer Agent five days prior to the effective date of the request. If your bank rejects your payment, the Fund's Transfer Agent will charge a \$25 fee to your account. To begin participating in the AIP, please complete the Automatic Investment Plan section on the Account Application or call the Fund's Transfer Agent at 1-855-369-6209 for instructions.

Purchasing Shares Through a Financial Intermediary. Investors may be charged a fee if they effect transactions through a financial intermediary. If you are purchasing shares through a financial intermediary, you must follow the procedures established by your financial intermediary. Your financial intermediary is responsible for sending your purchase order and wiring payment to the Transfer Agent. Your financial intermediary holds the shares in your name and receives all confirmations of purchases and sales. Financial intermediaries placing orders for themselves or on behalf of their customers should call the Fund toll free at 1-855-369-6209, or follow the instructions listed in the sections above entitled "Investing by Telephone," "Purchase by Mail" and "Purchase by Wire."

If you place an order for the Fund's shares through a financial intermediary that is not an Authorized Intermediary in accordance with such financial intermediary's procedures, and such financial intermediary then transmits your order to the Transfer Agent in accordance with the Transfer Agent's instructions, your

purchase will be processed at the NAV next calculated after the Transfer Agent receives your order. The financial intermediary must promise to send to the Transfer Agent immediately available funds in the amount of the purchase price in accordance with the Transfer Agent's procedures. If payment is not received within the time specified, the Transfer Agent may rescind the transaction and the financial intermediary will be held liable for any resulting fees or losses.

In the case of Authorized Intermediaries that have made satisfactory payment or redemption arrangements with the Fund, orders will be processed at the NAV next calculated after receipt in good order by the Authorized Intermediary (or its authorized designee), consistent with applicable laws and regulations. An order is deemed to be received when the Fund or an Authorized Intermediary accepts the order. Authorized Intermediaries may be authorized to designate other intermediaries to receive purchase and redemption requests on behalf of the Fund.

For more information about your financial intermediary's rules and procedures, and whether your financial intermediary is an Authorized Intermediary, and whether your financial intermediary imposes cut-off times for the receipt of orders that are earlier than the cut-off times established by the Fund, you should contact your financial intermediary directly.

Anti-Money Laundering Program. The Trust has established an Anti-Money Laundering Compliance Program as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the "USA PATRIOT Act") and related anti-money laundering laws and regulations. To ensure compliance with this law, the Account Application asks for, among other things, the following information for all "customers" seeking to open an "account" (as those terms are defined in rules adopted pursuant to the USA PATRIOT Act):

- full name;
- date of birth (individuals only);
- Social Security or taxpayer identification number; and
- permanent street address (a P.O. Box number alone is not acceptable).

If you are opening an account in the name of a certain legal entity (e.g., a partnership, limited liability company, business trust, corporation, etc.), you must also supply the identity of the beneficial owners of the legal entity. Accounts opened by entities, such as corporations, limited liability companies, partnerships or trusts, will require additional documentation.

If any information listed above is missing, your Account Application will be returned and your account will not be opened. In compliance with the USA PATRIOT Act and other applicable anti-money laundering laws and regulations, the Transfer Agent will verify the information on your application. The Fund reserves the right to request additional clarifying information and may close your account if such clarifying information is not received by the Fund within a reasonable time of the request or if the Fund cannot form a reasonable belief as to the true identity of a customer. In the rare event that we are unable to verify your identity, the Fund reserves the right to redeem your account at the current day's NAV. If you require additional assistance when completing your application, please contact the Transfer Agent at 1-855-369-6209.

Purchases In-Kind. Shares of the Fund may be purchased "in-kind" by advisory clients of the Adviser, its affiliates or other affiliated shareholders, in accordance with the Trust's procedures and subject to the Board's approval. Shares of the Fund and any securities contributed in-kind will be valued using the same procedures to determine the amount of Fund shares purchased in exchange for the securities contributed in-kind. Securities contributed in-kind will be valued at their current market price and Fund shares will have a NAV equal to the purchase price of such shares. If any in-kind purchase involves an affiliate of the Adviser, the Adviser will, consistent with its fiduciary duties, disclose to the Independent Trustees the existence of any material conflicts of interest between the Adviser and the Fund with respect to the in-kind purchase to facilitate the Board's ability to evaluate and approve the in-kind purchase.

How to Redeem Shares

Orders to sell or “redeem” shares may be placed either directly with the Fund or through a financial intermediary. If you originally purchased your shares through a financial intermediary, including an Authorized Intermediary, your redemption order must be placed with the same financial intermediary in accordance with the procedures established by that financial intermediary. Your financial intermediary is responsible for sending your order to the Transfer Agent and for crediting your account with the proceeds. You may redeem Fund shares on any business day that the Fund calculates its NAV. To redeem shares directly with the Fund, you must contact the Fund either by mail or by telephone to place a redemption request. Shares of the Fund are redeemed at the next NAV calculated after the Fund has received your redemption request in good order. Your redemption request must be received in good order (as discussed under “Payment of Redemption Proceeds,” below) prior to the close of the regular trading session of the NYSE (generally 4:00 p.m., Eastern time) by the Transfer Agent or by your Authorized Intermediary in order to obtain that day’s closing NAV. Redemption requests received by the Transfer Agent or an Authorized Intermediary after the close of the NYSE will be treated as though received on the next business day.

Shareholders who hold their shares through an IRA or other tax-advantaged account must indicate on their written redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate an election not to have tax withheld will generally be subject to 10% withholding. Shares held in IRA or other retirement plan accounts may be redeemed by telephone at 1-855-369-6209. Investors will be asked whether or not to withhold taxes from any distribution.

Payment of Redemption Proceeds. You may redeem your Fund shares at the NAV per share next determined after the Transfer Agent or your Authorized Intermediary receives your redemption request in good order. Your redemption request cannot be processed on days the NYSE is closed. Redemption proceeds with respect to all requests received by the Transfer Agent or your Authorized Intermediary in good order before the close of the regular trading session of the NYSE (generally 4:00 p.m., Eastern time) will usually be sent one to three business days following the receipt of your redemption request.

A redemption request made through the Transfer Agent will be deemed in “good order” if it includes:

- the shareholder’s name;
- the name of the Fund and share class you are redeeming from;
- the account number;
- the share or dollar amount to be redeemed; and
- signatures by all shareholders on the account and signature guarantee(s), if applicable.

The Fund reserves the right to change the requirements of “good order.” Shareholders will be given advance notice if the requirements of “good order” change. For information about your financial intermediary’s requirements for redemption requests in good order, please contact your financial intermediary.

You may receive proceeds of your sale by a check sent to the address of record, electronically via the ACH network using the previously established bank instructions or federal wire transfer to your pre-established bank account. The Fund typically expects that it will take one to three business days following the receipt of your redemption request to pay out redemption proceeds, regardless of whether the redemption proceeds are paid by check, ACH transfer or wire. Please note that wires are subject to a \$15 fee. There is no charge to have proceeds sent via ACH; however, funds are typically credited to your bank within two to three business days after redemption. In all cases, proceeds will be sent within seven calendar days after the Fund receives your redemption request, unless the Fund has suspended your right of redemption or postponed the payment date as permitted under the federal securities laws.

The Fund typically expects it will hold cash or cash equivalents to meet redemption requests. The Fund may also use the proceeds from the sale of portfolio securities to meet redemption requests if consistent with the management of the Fund. These redemption methods will be used regularly and may also be used during periods of stressed market conditions.

If the Transfer Agent has not yet collected payment for the shares you are selling, it may delay sending the proceeds until the payment is collected, which may take up to 12 calendar days from the purchase date. Shareholders can avoid this delay by utilizing the wire purchase option. Furthermore, there are certain times when you may be unable to sell Fund shares or receive proceeds. Specifically, the Fund may suspend the right to redeem shares or postpone the date of payment upon redemption for more than seven calendar days as determined by the SEC: (1) for any period during which the NYSE is closed (other than customary weekend or holiday closings) or trading on the NYSE is restricted; (2) for any period during which an emergency exists as a result of which disposal by the Fund of securities owned by it is not reasonably practicable or it is not reasonably practicable for the Fund to fairly determine the value of its net assets; or (3) for such other periods as the SEC may permit for the protection of shareholders. Your ability to redeem shares online or by telephone may be delayed or restricted after you change your address. You may change your address at any time by telephone or written request, addressed to the Transfer Agent. Confirmations of an address change will be sent to both your old and new address. Redemption proceeds will be sent to the address of record. The Fund is not responsible for interest lost on redemption amounts due to lost or misdirected mail.

The Fund may delay paying redemption proceeds for up to 7 calendar days after receiving a request if an earlier payment could adversely affect the Fund.

Redemptions in Kind. The Fund generally pays redemption proceeds in cash. However, the Trust has filed a notice of election under Rule 18f-1 of the 1940 Act, with the SEC, under which the Trust has reserved the right for the Fund to redeem in kind under certain circumstances, meaning that redemption proceeds are paid in liquid securities with a market value equal to the redemption price. These securities redeemed in kind remain subject to general market risks until sold. For federal income tax purposes, redemptions in kind are taxed in the same manner to a redeeming shareholder as redemptions made in cash. If the Fund pays your redemption proceeds by a distribution of securities, you could incur brokerage or other charges when converting the securities to cash.

Redemptions in-kind are typically used to meet redemption requests that represent a large percentage of the Fund's net assets in order to minimize the effect of large redemptions on the Fund and its remaining shareholders. Redemptions in-kind may be used in circumstances as described above, and may also be used during periods of stressed market conditions.

Redemption in-kind proceeds are limited to securities that are traded on a public securities market or for which quoted bid prices are available. In the unlikely event that the Fund redeems shares in-kind, the procedures utilized by the Fund to determine the securities to be distributed to redeeming shareholders will generally be representative of a shareholder's interest in the Fund's portfolio securities. However, the Fund may also redeem in-kind using individual securities as circumstances dictate.

Signature Guarantees. The Transfer Agent may require a signature guarantee for certain redemption requests. Signature guarantees can be obtained from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program and the Securities Transfer Agents Medallion Program ("STAMP"), but not from a notary public. A signature guarantee, from either a Medallion program member or a non-Medallion program member of each owner is required in the following situations:

- if ownership is being changed on your account;

- when redemption proceeds are payable or sent to any person, address or bank account not on record;
- when a redemption request is received by the Transfer Agent and the account address has changed within the last 15 calendar days; or
- for all redemptions in excess of \$100,000 from any shareholder account.

Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source.

In addition to the situations described above, the Fund and/or the Transfer Agent reserve the right to require a signature guarantee or other acceptable signature verification in other instances based on the circumstances relative to the particular situation.

Redemption by Mail. You can execute most redemptions by furnishing an unconditional written request to the Fund to redeem your shares at the current NAV per share. Redemption requests in writing should be sent to the Transfer Agent at:

Regular Mail

Rockefeller Climate Solutions Fund
 c/o U.S. Bank Global Fund Services
 P.O. Box 701
 Milwaukee, WI 53201-0701

Overnight or Express Mail

Rockefeller Climate Solutions Fund
 c/o U.S. Bank Global Fund Services
 615 East Michigan Street, 3rd Floor
 Milwaukee, WI 53202

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent’s post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent’s offices.

Telephone Redemption. Telephone redemption privileges are automatically provided unless you specifically decline the option on your Account Application. You may redeem shares, in amounts of \$100,000 or less, by instructing the Fund by telephone at 1-855-369-6209. A signature verification from a Signature Validation Program member or other acceptable form of authentication from a financial institution source may be required of all shareholders in order to add or change telephone redemption privileges on an existing account. Telephone redemptions cannot be made if you have notified the Transfer Agent of a change of address within 15 calendar days before the redemption request. Once a telephone transaction has been placed, it may not be cancelled or modified after the close of regular trading on the NYSE (generally 4:00 p.m., Eastern time). If an account has more than one owner or authorized person, the Fund will accept telephone instructions from any one owner or authorized person.

Wire Redemption. Wire transfers may be arranged to redeem shares. The Transfer Agent charges a fee, currently \$15, per wire redemption against your account on dollar specific trades, and from proceeds on complete redemptions and share-specific trades. There is no charge to have proceeds sent via ACH.

Systematic Withdrawal Program “SWP”. The Fund offers a SWP whereby shareholders or their representatives may request a redemption in a specific dollar amount be sent to them each month, calendar quarter or year. Investors may choose to have a check sent to the address of record, or proceeds may be sent to a pre-designated bank account via the ACH network. To start the SWP, your account must have Fund shares with a value of at least \$10,000, and the minimum payment amount is \$500. The SWP may be terminated or modified by the Fund at any time. You may terminate your participation in the SWP at any time in writing or by telephoning the Transfer Agent no later than five days before the next scheduled withdrawal. A withdrawal under the SWP involves a redemption of Fund shares, and may result in a

capital gain or loss for federal income tax purposes. In addition, if the amount withdrawn exceeds the amounts credited to your account, the account ultimately may be depleted. To establish the SWP, complete the SWP section of the Account Application. Please call 1-855-369-6209 for additional information regarding the SWP.

The Fund's Right to Redeem an Account. The Fund reserves the right to redeem the shares of any shareholder whose account balance is less than \$2,500, other than as a result of a decline in the NAV of the Fund or for market reasons. The Fund will provide a shareholder with written notice 30 calendar days prior to redeeming the shareholder's account. Redemption of a shareholder's account by the Fund may result in a taxable capital gain or loss for federal income tax purposes.

Exchanging or Converting Shares

Exchanging Shares. You may exchange all or a portion of your investment from the share class of one Rockefeller Fund to an identically registered account in the same share class of another Rockefeller Fund. Any new account established through an exchange will be subject to the minimum investment requirements described above under "How to Purchase Shares," unless the account qualifies for a waiver of the initial investment requirement. Exchanges will be executed on the basis of the relative NAV of the shares exchanged. An exchange is considered to be a sale of shares for federal income tax purposes on which you may realize a taxable capital gain or loss.

Converting Shares. Subject to meeting the minimum investment amount for Institutional Class shares, investors currently holding Class A shares of the Fund may convert to Institutional Class shares of the same Fund. A share conversion within the same Fund will not result in a taxable capital gain or loss for federal income tax purposes.

Call the Fund (toll-free) at 1-855-369-6209 to learn more about exchanges and conversions of Fund shares.

Tools to Combat Frequent Transactions

The Fund is intended for long-term investors. Short-term "market-timers" who engage in frequent purchases and redemptions may disrupt the Fund's investment program and create additional transaction costs that are borne by all of the Fund's shareholders. The Board of Trustees has adopted policies and procedures that are designed to discourage excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm performance. The Fund takes steps to reduce the frequency and effect of these activities in the Fund. These steps may include, among other things, monitoring trading activity and using fair value pricing, as determined by the Board of Trustees, when the Adviser determines current market prices are not readily available. Although these efforts are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity will occur. The Fund seeks to exercise its judgment in implementing these tools to the best of its ability in a manner that it believes is consistent with shareholder interests. Except as noted herein, the Fund will apply all restrictions uniformly in all applicable cases.

Monitoring Trading Practices. The Fund monitors selected trades in an effort to detect excessive short-term trading activities. Short-term trading occurs when an investor (through one or more accounts) makes more than one round-trip (a purchase into a fund followed by a redemption) within a short period of time. Investors are limited to no more than four round-trip transactions in a 12-month period after which time future purchases into the Fund will be restricted. If, as a result of this monitoring, the Fund believes that an investor has engaged in excessive short-term trading, it may, in its discretion, ask the shareholder to stop such activities or refuse to process purchases in the shareholder's accounts. In making such judgments, the Fund seeks to act in a manner that they believe is consistent with the best interests of shareholders. The Fund uses a variety of techniques to monitor for and detect abusive trading practices. These techniques may change from time to time as determined by the Fund in its sole discretion. To minimize harm to the Fund and its shareholders, the Fund reserves the right to reject any purchase order

(but not a redemption request), in whole or in part, for any reason (including, without limitation, purchases by persons whose trading activity in Fund shares is believed by the Adviser to be harmful to the Fund) and without prior notice. The Fund may decide to restrict purchase and sale activity in its shares based on various factors, including whether frequent purchase and sale activity will disrupt portfolio management strategies and adversely affect Fund performance.

Fair Value Pricing. The Fund employs fair value pricing selectively to ensure greater accuracy in its daily NAV and to prevent dilution by frequent traders or market timers who seek to take advantage of temporary market anomalies. The Board of Trustees has developed procedures which utilize fair value pricing when reliable market quotations are not readily available or the Fund's Pricing Service does not provide a valuation (or provides a valuation that, in the judgment of the Adviser, does not represent the security's fair value), or when, in the judgment of the Adviser, events have rendered the market value unreliable. Valuing securities at fair value involves reliance on judgment. Fair value determinations are made in good faith in accordance with procedures adopted by the Board of Trustees. There can be no assurance that the Fund will obtain the fair value assigned to a security if it were to sell the security at approximately the time at which the Fund determines its NAV per share. More detailed information regarding fair value pricing can be found in this Prospectus under the heading entitled "Share Price."

Due to the complexity and subjectivity involved in identifying abusive trading activity and the volume of shareholder transactions the Fund handles, there can be no assurance that the Fund's efforts will identify all trades or trading practices that may be considered abusive. In particular, since the Fund receives purchase and sale orders through Authorized Intermediaries that use group or omnibus accounts, the Fund cannot always detect frequent trading. However, the Fund will work with Authorized Intermediaries as necessary to discourage shareholders from engaging in abusive trading practices and to impose restrictions on excessive trades. In this regard, the Fund has entered into information sharing agreements with Authorized Intermediaries pursuant to which these intermediaries are required to provide to the Fund, at the Fund's request, certain information relating to their customers investing in the Fund through non-disclosed or omnibus accounts. The Fund will use this information to attempt to identify abusive trading practices. Authorized Intermediaries are contractually required to follow any instructions from the Fund to restrict or prohibit future purchases from shareholders that are found to have engaged in abusive trading in violation of the Fund's policies. However, the Fund cannot guarantee the accuracy of the information provided to it from Authorized Intermediaries and cannot ensure that it will always be able to detect abusive trading practices that occur through non-disclosed and omnibus accounts. As a result, the Fund's ability to monitor and discourage abusive trading practices in non-disclosed or omnibus accounts may be limited.

Other Fund Policies

Telephone Transactions. If you have not declined telephone privileges on the Account Application or in a letter to the Fund, you may be responsible for any fraudulent telephone orders as long as the Fund has taken reasonable precautions to verify your identity. In addition, once you place a telephone transaction request, it cannot be canceled or modified after the close of regular trading on the NYSE (generally 4:00 p.m., Eastern time).

During periods of significant economic or market change, telephone transactions may be difficult to complete. If you are unable to contact the Fund by telephone, you may also mail the requests to the Fund at the address listed previously in the "How to Purchase Shares" section. Neither the Fund nor the Transfer Agent are liable for any loss incurred due to failure to complete a telephone transaction prior to the close of the NYSE (generally 4:00 p.m., Eastern time).

Telephone trades must be received by or prior to the close of the NYSE (generally 4:00 p.m., Eastern time). During periods of high market activity, shareholders may encounter higher than usual call waiting times. Please allow sufficient time to ensure that you will be able to complete your telephone transaction

prior to the close of the NYSE. The Fund is not responsible for delays due to communication or transmission outages, subject to applicable law.

Neither the Fund nor any of its service providers will be liable for any loss or expense in acting upon instructions that are reasonably believed to be genuine, subject to applicable law. If an account has more than one owner or authorized person, the Fund will accept telephone instructions from any one owner or authorized person. To confirm that all telephone instructions are genuine, the Fund will use reasonable procedures, such as requesting that you correctly state:

- your Fund account number;
- the name in which your account is registered; or
- the Social Security or taxpayer identification number under which the account is registered.

Policies of Authorized Intermediaries. An Authorized Intermediary may establish policies that differ from those of the Fund. For example, the Authorized Intermediary may charge transaction fees, set higher minimum investments or impose certain limitations on buying or selling shares in addition to those identified in this Prospectus. Please contact your Authorized Intermediary for details.

Closure of the Fund. The Adviser retains the right to close the Fund (or partially close the Fund) or to place restrictions on purchases of Fund shares if it is determined to be in the best interest of shareholders. Based on market and Fund conditions, the Adviser may decide to close the Fund to new investors, all investors or certain classes of investors (such as fund supermarkets) at any time. If the Fund is closed to new purchases it will continue to honor redemption requests, unless the right to redeem shares has been temporarily suspended as permitted by federal law.

Lost Shareholders, Inactive Accounts and Unclaimed Property. It is important that the Fund maintains a correct address for each shareholder. An incorrect address may cause a shareholder's account statements and other mailings to be returned to the Fund. Based upon statutory requirements for returned mail, the Fund will attempt to locate the shareholder or rightful owner of the account. If the Fund is unable to locate the shareholder, then it will determine whether the shareholder's account can legally be considered abandoned. Your mutual fund account may be transferred to the state government of your state of residence if no activity occurs within your account during the "inactivity period" specified in your state's abandoned property laws. The Fund is legally obligated to escheat (or transfer) abandoned property to the appropriate state's unclaimed property administrator in accordance with statutory requirements. The shareholder's last known address of record determines which state has jurisdiction. Please proactively contact the Transfer Agent toll-free at 1-855-369-6209 at least annually to ensure your account remains in active status.

If you are a resident of the state of Texas, you may designate a representative to receive notifications that, due to inactivity, your mutual fund account assets may be delivered to the Texas Comptroller. Please contact the Transfer Agent if you wish to complete a Texas Designation of Representative form.

IRA Accounts. IRA accounts will be charged a \$15 annual maintenance fee.

Distribution of Fund Shares

The Distributor

The Trust has entered into a Distribution Agreement (the "Distribution Agreement") with Quasar Distributors, LLC (the "Distributor"), located at 111 East Kilbourn Avenue, Suite 2200, Milwaukee, Wisconsin 53202, pursuant to which the Distributor acts as the Fund's principal underwriter, provides certain administration services and promotes and arranges for the sale of the Fund's shares. The offering of the Fund's shares is continuous, and the Distributor distributes the Fund's shares on a best efforts basis.

The Distributor is not obligated to sell any certain number of shares of the Fund. The Distributor is a registered broker-dealer and member of FINRA.

Payments to Financial Intermediaries

The Fund may pay fees to intermediaries such as banks, broker-dealers, financial advisers or other financial institutions, including affiliates of the Adviser, for recordkeeping, sub-administration, sub-accounting, sub-transfer agency and other shareholder services (collectively, “sub-TA services”) associated with shareholders whose shares are held of record in omnibus and networked accounts, retirement plans, other group accounts or accounts traded through registered securities clearing agents in lieu of the transfer agent providing such services.

The Adviser, out of its own resources and legitimate profits and without additional cost to the Fund or their shareholders, may provide additional cash payments to certain intermediaries. These payments, sometimes referred to as revenue sharing, are in addition to Rule 12b-1 fees, shareholder servicing plan fees and sub-TA fees paid by the Fund, if any. Revenue sharing payments may be made to intermediaries for sub-TA services or distribution-related services, such as marketing support; access to third party platforms; access to sales meetings, sales representatives and management representatives of the intermediary; inclusion of the Fund on a sales list, including a preferred or select sales list, and in other sales programs. The Adviser may also pay cash compensation in the form of finder’s fees that vary depending on the dollar amount of the shares sold. From time to time, and in accordance with applicable rules and regulations, the Adviser may also provide non-cash compensation to representatives of various intermediaries who sell Fund shares or provide services to Fund shareholders.

Distributions and Taxes

Distributions

The Fund will make distributions of net investment income and net capital gain, if any, at least annually, typically during the month of December. The Fund may make additional distributions if deemed to be desirable at another time during the year.

All distributions will be reinvested in additional Fund shares unless you choose one of the following options: (1) receive distributions of net capital gain in cash, while reinvesting net investment income distributions in additional Fund shares; (2) receive all distributions in cash; or (3) reinvest net capital gain distributions in additional Fund shares, while receiving distributions of net investment income in cash.

If you wish to change your distribution option, write to or call the Transfer Agent in advance of the payment date of the distribution. However, any such change will be effective only as to distributions for which the record date is five or more calendar days after the Transfer Agent has received the request.

If you elect to receive distributions in cash and the U.S. Postal Service is unable to deliver your check, or if the check remains uncashed for six months, the Fund reserves the right to reinvest the distribution check in your account at the Fund’s then current NAV per share and to reinvest all subsequent distributions.

Federal Income Tax Consequences

Changes in income tax laws, potentially with retroactive effect, could impact the Fund’s investments or the tax consequences to you of investing in the Fund. Some of the changes could affect the timing, amount and tax treatment of the Fund’s distributions to shareholders. Please consult your tax adviser before investing.

Distributions of the Fund’s investment company taxable income (which includes, but is not limited to, taxable interest, dividends, net short-term capital gain, and net gain from foreign currency transactions), if

any, are generally taxable to the Fund's shareholders as ordinary income. For a non-corporate shareholder, to the extent that the Fund's distributions of investment company taxable income are attributable to and reported as "qualified dividend" income, such income may be subject to tax at the reduced federal income tax rates applicable to net long-term capital gain, if certain holding period requirements have been satisfied by the shareholder. For a corporate shareholder, a portion of the Fund's distributions of investment company taxable income may qualify for the intercorporate dividends-received deduction to the extent the Fund receives dividends directly or indirectly from U.S. corporations, reports the amount distributed as eligible for the deduction and the corporate shareholder meets certain holding period requirements with respect to its shares. To the extent that the Fund's distributions of investment company taxable income are attributable to net short-term capital gain, such distributions will be treated as ordinary income and generally cannot be offset by a shareholder's capital losses from other investments.

Distributions of the Fund's net capital gain (net long-term capital gain less net short-term capital loss) are generally taxable to Fund shareholders as long-term capital gain regardless of the length of time that a shareholder has owned Fund shares. Distributions of net capital gain are not eligible for qualified dividend income treatment or the dividends-received deduction referred to in the previous paragraph.

You will be taxed in the same manner whether you receive your distributions (of investment company taxable income, or net capital gain) in cash or reinvest them in additional Fund shares. Distributions are generally taxable when received. However, distributions declared in October, November, or December to shareholders of record and paid the following January are taxable as if received on December 31.

In addition to the federal income tax, certain individuals, trusts and estates may be subject to a Net Investment Income ("NII") tax of 3.8%. The NII tax is imposed on the lesser of: (i) a taxpayer's investment income, net of deductions properly allocable to such income, or (ii) the amount by which such taxpayer's modified adjusted gross income exceeds certain thresholds (\$250,000 for married individuals filing jointly, \$200,000 for unmarried individuals and \$125,000 for married individuals filing separately). The Fund's distributions are includable in a shareholder's investment income for purposes of this NII tax. In addition, any capital gain realized by a shareholder upon a sale, redemption or exchange of Fund shares is includable in such shareholder's investment income for purposes of this NII tax.

Shareholders who sell, redeem, or exchange shares generally will have a capital gain or loss from the sale, redemption, or exchange. The amount of the gain or loss and the applicable rate of federal income tax will depend generally upon the amount paid for the shares, the amount received from the sale, redemption or exchange (including in-kind redemptions) and how long the shares were held by a shareholder. Gain or loss realized upon a sale, redemption, or exchange of Fund shares will generally be treated as a long-term capital gain or loss if the shares have been held for more than one year and, if held for one year or less, as a short-term capital gain or loss. However, loss arising from the sale, redemption, or exchange of shares held for six months or less is treated as a long-term capital loss to the extent of any distributions of net capital gain received or deemed to be received with respect to such shares. In determining the holding period of such shares for this purpose, any period during which your risk of loss is offset by means of options, short sales, or similar transactions is not counted. If you purchase the Fund's shares (through reinvestment of distributions or otherwise) within 30 days before or after selling, redeeming or exchanging the Fund's shares at a loss, all or part of that loss will not be deductible and will instead increase the basis of the new shares.

Some foreign governments levy withholding and other taxes against dividend, interest, and other income. Although in some countries a portion of these taxes is recoverable, the non-recovered portion will reduce the return on the Fund's securities. The Fund may elect to pass through to you your pro rata share of foreign income taxes paid by the Fund, which you may use for purposes of determining your foreign tax credit or deduction, if more than 50% of the value of the Fund's total assets at the close of its taxable year consists of foreign stocks and securities. The Fund will notify you if it is eligible to and makes such an election.

The Fund is required to report to certain shareholders and the IRS the cost basis of Fund shares acquired on or after January 1, 2012, when such shareholders subsequently sell, redeem, or exchange those shares. The Fund will determine cost basis using the high cost method unless you elect in writing (and not over the phone) any alternate IRS-approved cost basis method. Please see the SAI for more information regarding cost basis reporting.

The federal income tax status of all distributions made by the Fund for the preceding year will be annually reported to shareholders. Distributions made by the Fund may also be subject to state and local taxes. Additional tax information may be found in the SAI.

This section is not intended to be a full discussion of federal income tax laws and the effect of such laws on you. There may be other federal, state, foreign, or local tax considerations applicable to a particular investor. This section is based on the Code, Treasury Regulations, judicial decisions, and IRS guidance on the date hereof, all of which are subject to change, and possibly with retroactive effect. No assurance can be given that legislative, judicial, or administrative changes will not be forthcoming which could affect the accuracy of any statements made in this section. You are urged to consult your own tax adviser.

Financial Highlights

Financial information is are not available because the Fund had not commenced operations prior to the date of this Prospectus.

PRIVACY NOTICE

The Fund collects non-public personal information about you from the following sources:

- information the Fund receives about you on applications or other forms;
- information you give the Fund orally; and/or
- information about your transactions with the Fund or others.

The Fund does not disclose any non-public personal information about its shareholders or former shareholders without the shareholder's authorization, except as permitted by law or in response to inquiries from governmental authorities. The Fund may share information with affiliated parties and unaffiliated third parties with whom it has contracts for servicing the Fund. The Fund will provide unaffiliated third parties with only the information necessary to carry out its assigned responsibility. All shareholder records will be disposed of in accordance with applicable law. The Fund maintains physical, electronic and procedural safeguards to protect your non-public personal information and requires third parties to treat your non-public personal information with the same high degree of confidentiality.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of your financial intermediary governs how your non-public personal information is shared with unaffiliated third parties.

You can find more information about the Fund in the following documents:

Statement of Additional Information

The Fund's SAI provides additional details about the investments and techniques of the Fund and certain other additional information. A current SAI is on file with the SEC and is incorporated into this Prospectus by reference. This means that the Fund's SAI is legally considered a part of this Prospectus even though it is not physically within this Prospectus.

Annual and Semi-Annual Reports

The Fund's annual and semi-annual reports will provide the most recent financial reports and portfolio holdings. The Fund's annual reports will contain a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during the Fund's prior fiscal year.

You can obtain a free copy of these documents (when available), request other information, or make general inquiries about the Fund by calling the Fund (toll-free) at 1-855-369-6209, by visiting the Fund's website at www.rockefellerfunds.com or by writing to:
